"Once again, *Studies* shows us new analyses of American political history. It features carefully staged confrontations between theory and evidence on important problems: judicial review, state power, welfare policy, political influence, and more, much more."—Charles Tilly, New School for Social Research

VOLUME 1

"Very rich and stimulating fare."—Walter Dean Burnham, University of Texas

"This is a splendidly edited and produced addition to the journal literature which will fill an important gap for scholars concerned with political development."—Harry N. Scheiber, University of California at Berkeley
