Special sales and supplements

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Sarah Maddox at Cambridge University Press for further details (email: smaddox@cambridge.org).

Subscription information

Public Health Nutrition is an international journal published 12 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

Annual subscription rates

Volume 16, 2013 (12 issues):
Internet/print package: £886/\$1700 Americas only/€1420 EU only
Internet only: £675/\$1280 Americas only/€1420 EU only

Any supplements to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Advertising: The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and

which are not, and will not be obliged to give reasons to prospective advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

Back volumes will be available in due course. Please contact Cambridge University Press for further information.

US POSTMASTERS: Please send address corrections to

Notes for Authors are available from the publisher at the given address and can be found inside the back cover.

Offprints: The author (or main author) of an accepted paper will receive a free PDF of their paper. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

Copyright: As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

Disclaimer: The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. Neither the Society, nor Cambridge University Press accepts responsibility for any trade advertisement included in this publication.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

Public Health Nutrition is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS[®], Global Health, Index Medicus[®] (MEDLINE[®]), EMBASE, Excerpta Medica, BIOSIS[®] Database and CINAHL[®] Database
Public Health Nutrition participates in the following initiatives: HINARI by WHO and AGORA by FAO.

Public Health Nutrition (PHN) provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, including references.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

Submission: PHN operates an online submission and reviewing system (eJournalPress). All manuscripts must be submitted online at <http://phn.msubmit.net/>. If any difficulties are encountered, please contact the Publications Office at phn.edoffice@cambridge.org

Refereeing: Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

Copyright: At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

Preparation of manuscripts: Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

Disclosure of financial support and any competing

interests. The submission must include a statement within an Acknowledgements section reporting any competing interests, all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

Proofs: Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

Offprints: The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

In this Issue

What have we learned from two decades of research on household food security?
M Nord 2

HOT TOPIC – Food insecurity

Risk factors associated with the presence and severity of food insecurity in rural Honduras
ME Ben-Davies, A Kinlaw, YE del Campo, ME Bentley and AM Siega-Riz 5

Food and nutrition insecurity: a marker of vulnerability to asthma symptoms
R de C Ribeiro-Silva, AM Oliveira-Assis, SB Junqueira, RL Fiaccone, SMC dos Santos, ML Barreto, E de Jesus Pinto, LA da Silva, LC Rodrigues and NM Alcantara-Neves 14

Sociodemographic factors associated with healthy eating and food security in socio-economically disadvantaged groups in the UK and Victoria, Australia
LE Thornton, JR Pearce and K Ball 20

Prevalence and severity of household food insecurity of First Nations people living in an on-reserve, sub-Arctic community within the Mushkegowuk Territory
K Skinner, RM Hanning and LJS Tsuji 31

Women respondents report higher household food insecurity than do men in similar Canadian households
J Matheson and L McIntyre 40

When working is not enough: food insecurity in the Canadian labour force
L McIntyre, AC Bartoo and JC Herbert Emery 49

High levels of household food insecurity on the Navajo Nation
M Pardiya, D Prasad, S Suratkar and J Gittelsohn 58

Time to eat? The relationship between food security and food-related time use
TKM Beatty, MS Nanney and C Tuttle 66

Very low food security in the USA is linked with exposure to violence
MM Chilton, JR Rabinowich and NH Woolf 73

Evaluating the initial impact of the revised Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) food packages on dietary intake and home food availability in African-American and Hispanic families
AM Odoms-Young, A Kong, LA Schiffer, SJ Porter, L Blumstein, S Bess, ML Berbaum and ML Fitzgibbon 83

Place and food insecurity: a critical review and synthesis of the literature
MA Carter, L Dubois and MS Tremblay 94

Monitoring and surveillance

Sources of excessive saturated fat, *trans* fat and sugar consumption in Brazil: an analysis of the first Brazilian nationwide individual dietary survey
RA Pereira, KJ Duffey, R Sichieri and BM Popkin 113

Prevalence of 25-hydroxyvitamin D deficiency in Korean adolescents: association with age, season and parental vitamin D status
SH Kim, MK Oh, R Namgung and MJ Park 122

Assessment and methodology

A proposed method to determine fumonisin exposure from maize consumption in a rural South African population using a culturally appropriate FFQ
M Lombard, N Steyn, H-M Burger, K Charlton and W Gelderblom 131

Evaluation of photographs supporting an FFQ developed for adolescents
AP Brito, CP Guimarães and RA Pereira 139

Epidemiology

What's for dinner? Types of food served at family dinner differ across parent and family characteristics
D Neumark-Sztainer, R MacLehose, K Loth, JA Fulkerson, ME Eisenberg and J Berge 145

Relationship of socio-economic factors and parental eating habits with children's food intake in a population-based study in a metropolitan area of Brazil
G dos Santos Barroso, R Sichieri and R Salles-Costa 156

Sociodemographic factors and risk-taking behaviour during adolescence and obesity among more than 40 000 Danes
P Frederiksen, KE Jensen and SK Kjaer 162

Children's perceptions of weight, obesity, nutrition, physical activity and related health and socio-behavioural factors
CD Economos, PJ Bakun, JB Herzog, PR Dolan, VM Lynskey, D Markow, S Sharma and ME Nelson 170

The relationship of perceptions of tap water safety with intake of sugar-sweetened beverages and plain water among US adults
SJ Onufrak, S Park, JR Sharkey and B Sherry 179

Nutrition and health

25-Hydroxyvitamin D insufficiency is associated with cardiometabolic risk in Korean adolescents: the 2008–2009 Korea National Health and Nutrition Examination Survey (KNHANES)
GE Nam, DH Kim, KH Cho, YG Park, KD Han, SM Kim, SH Lee, BJ Ko and M Ji Kim 186

Associations between *a priori*-defined dietary patterns and longitudinal changes in bone mineral density in adolescents
T Monjardino, R Lucas, E Ramos and H Barros 195

Providing care for children with severe acute malnutrition in India: new evidence from Jharkhand
VM Aguayo, S Jacob, N Badgaiyan, P Chandra, A Kumar and K Singh 206

Public policies

Drop the Salt! Assessing the impact of a public health advocacy strategy on Australian government policy on salt
J Webster, E Dunford, S Kennington, B Neal and S Chapman 212

Public support for policies to improve the nutritional impact of the Supplemental Nutrition Assistance Program (SNAP)
MW Long, CW Leung, LWY Cheung, SJ Blumenthal and WC Willett 219

Environment and sustainability

Ageing in an ultra-dense metropolis: perceived neighbourhood characteristics and utilitarian walking in Hong Kong elders
E Cerin, CHP Sit, A Barnett, JM Johnston, M-C Cheung and W-M Chan 225

Health economy

Obesity prevalence in Mexico: impact on health and economic burden
K Rtveldaz, T Marsh, S Barquera, LM Sanchez Romero, D Levy, G Melendez, L Webber, F Kilpi, K McPherson and M Brown 233
