# The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

WALTER HOWARTH

ASSISTED BY

W. M. MOLLISON

1. Original Articles are accepted on the condition that they have not been published elsewhere.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter added.

4. Orders for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.

5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

6. Editorial Communications may be addressed to THE EDITOR, *Journal of Laryngology*, c/o HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

7. The Annual Subscription commencing with the January issue is Two Pounds sterling, post free, and is payable in advance.

8. Single copies, both of the present and the previous series, are on sale at Four Shillings each.

9. All Subscriptions, advertising and business communications should be sent to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

### *United States of America*

Orders for this Journal may be sent either through a local bookseller, or to Messrs. G. E. STECHERT & Co., 31-33 East 10th Street, New York, or may be sent direct to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2, England.

## PRESCRIBE THE EASY EFFECTIVE METHOD

When spraying, the patient can hold his head in a natural position, yet the solution spreads throughout the nasal cavity, assuring thorough treatment. Effective dropper-application, on the other hand, requires a complicated posture technique which patients are apt to neglect in home treatment.

## DeVilbiss ATOMIZERS

DROPPER ?

ATOMIZER ?

These illustrations, which are based on X-ray research, clearly demonstrate the advantages of the atomizer as compared with the dropper

A REVOLUTIONARY DEVELOPMENT IN  
INTRANASAL SULPHONAMIDE THERAPY

# 'SULFEX'

'Sulfex'\* combines, for the first time, in a single chemically stable preparation the potent bacteriostatic action of 'Mickraform'\* sulphathiazole (5%) and the effective vasoconstriction of 'Paredrinex'\* (1%). The minute crystals of 'Mickraform' sulphathiazole ensure: (1) Enhanced therapeutic effect; (2) Uniform coating over infected areas; (3) Prolonged bacteriostatic action; (4) Easy passage into the sinuses. 'Paredrinex' exerts a rapid, complete and prolonged shrinkage of the nasal mucosa, thus achieving maximum ventilation and drainage. Indicated in acute nasal and sinus conditions—especially those secondary to the common cold.

Available, on prescription only,  
in 1-oz. bottles with dropper.  
Retail price 4/6 + 7d. Purchase Tax.

*Sample and further details on  
the signed request of physicians.*

**RAPID DISINFECTION**  
 ARGYROL Silver Vitellin  
*plus*  
 Natural EPHEDRINE  
**IMMEDIATE DECONGESTION**

*in the treatment of*

**COLDS • ACUTE OR CHRONIC RHINITIS • CATARRH  
 SINUSITIS • ASTHMA • HAY FEVER • CONJUNCTIVITIS**

The therapeutic properties of Silver Vitellin have been well known for the past twenty years. The combination into a **stable solution** of Silver Vitellin and natural laevorotatory Ephedrine—a powerful and lasting congestion-relieving agent—in normal saline gives Argotone immediate acceptance as the ideal treatment for nasal affections and their complications.

ARGOTONE is an ethical preparation, **not advertised to the Public**, and can be prescribed with every confidence. Immediate decongestion and rapid disinfection are obtained without possibility of harm to the delicate mucous membranes.

**'SONERYL'**

TRADE MARK

BRAND

b u t o b a r b i t o n e

**for insomnia**

'SONERYL' is effective in insomnia of nervous origin whether associated with worry and over-work or with definite neuroses. It is also of value in pyrexial conditions where restlessness and discomfort so often interfere with sleep.

'SONERYL' is rapid in action, non-cumulative and of low toxicity, devoid of "hangover" effects and of propensity to addiction. In varying dosage it can produce a result ranging from mildly sedative to deeply hypnotic.

**SUPPLIES:**

**TABLETS, each gr. 1½ are supplied in containers of 12, 25, 100 and 500.**

**SUPPOSITORIES. Boxes of 5 each containing gr. 3, gr. 5 or gr. 10 of the active product.**
