## ROYAL SOCIETY OF EDINBURGH.

VOLUME LII, PART IV.—SESSION 1920-21.

### CONTENTS.

	PAGE
XXVII. <i>Scottish National Antarctic Expedition, 1902-1904: Cambrian Organic Remains from a Dredging in the Weddell Sea.</i> By W. T. GORDON, D.Sc., Reader in Geology, University of London, King's College. (With Seven Plates), . . . . . (Issued June 9, 1920.)	681
XXVIII. <i>New Stelar Facts, and their Bearing on Stelar Theories for the Ferns.</i> By JOHN M'LEAN THOMPSON, M.A., D.Sc., F.L.S., Lecturer on Plant Morphology, Glasgow University. (With Four Plates and Nine Figures in the Text), . . . . . (Issued July 9, 1920.)	715
XXIX. <i>Isle of Wight Disease in Hive Bees.</i> (1) <i>The Etiology of the Disease.</i> By JOHN RENNIE, D.Sc.; PHILIP BRUCE WHITE, B.Sc.; and ELSIE J. HARVEY. (With One Plate), . . . . . (2) <i>The Pathology of Isle of Wight Disease in Hive Bees.</i> By PHILIP BRUCE WHITE, B.Sc., Bacteriologist to the Bee Disease Investigation, University of Aberdeen and N. of Scotland College of Agriculture. Communicated by Dr JOHN RENNIE. (With One Plate), . . . . . (3) <i>Isle of Wight Disease in Hive Bees—Experiments on Infection with Tarsonemus woodi, n. sp.</i> By ELSIE J. HARVEY. Communicated by Dr JOHN RENNIE, . . . . . (4) <i>Isle of Wight Disease in Hive Bees—Acarine Disease: The Organism associated with the Disease—Tarsonemus woodi, n. sp.</i> By JOHN RENNIE, D.Sc. (With One Plate and Two Figures in the Text), . . . . . (Issued March 25, 1921.)	737 755 765 768
XXX. <i>Shackleton Antarctic Expedition, 1914-1917: Depths and Deposits of the Weddell Sea.</i> By J. M. WORDIE, M.A., F.G.S. Communicated by Professor J. W. GREGORY, F.R.S., . . . . . (Issued May 27, 1921.)	781
XXXI. <i>Shackleton Antarctic Expedition, 1914-1917: The Natural History of Pack-Ice as observed in the Weddell Sea.</i> By J. M. WORDIE, M.A., F.G.S. Communicated by Professor J. W. GREGORY, F.R.S. (With Nine Text-Figures and Four Plates), . . . . . (Issued June 21, 1921.)	795
XXXII. <i>On Old Red Sandstone Plants showing Structure, from the Rhynie Chert Bed, Aberdeenshire. Part IV. Restorations of the Vascular Cryptogams, and Discussion of their Bearing on the General Morphology of the Pteridophyta and the Origin of the Organisation of Land Plants.</i> By R. KIDSTON, LL.D., D.Sc., F.R.S., and W. H. LANG, D.Sc., F.R.S., Barker Professor of Cryptogamic Botany in the University of Manchester. (With Five Plates), . . . . . (Issued August 26, 1921.)	831
XXXIII. <i>On Old Red Sandstone Plants showing Structure, from the Rhynie Chert Bed, Aberdeenshire. Part V. The Thallophyta occurring in the Peat-Bed; the Succession of the Plants throughout a Vertical Section of the Bed, and the Conditions of Accumulation and Preservation of the Deposit.</i> By R. KIDSTON, LL.D., D.Sc., F.R.S., and W. H. LANG, D.Sc., F.R.S., Barker Professor of Cryptogamic Botany in the University of Manchester. (With Ten Plates and One Figure in the Text), . . . . . (Issued November 30, 1921.)	855
INDEX, . . . . .	903

EDINBURGH:

PUBLISHED BY ROBERT GRANT & SON, 107 PRINCES STREET,  
AND WILLIAMS & NORGATE, 14 HENRIETTA STREET, COVENT GARDEN, LONDON, W.C. 2.

MDCCCXXI.

Price Fifty-three Shillings.

# CONTENTS.

## PART I. (1917-18.)

NUMBER		PAGE
I.	<i>On the Leaf-Trace in some Pinnate Leaves.</i> By R. C. DAVIE, M.A., D.Sc., Lecturer in Botany in the University of Edinburgh. (With One Plate).	1
II.	<i>The Insect Association of a Local Environmental Complex in the District of Holmes Chapel, Cheshire.</i> By ALFRED E. CAMERON, M.A., D.Sc. (Aberd.), M.Sc. (Vict.); Field Officer, Entomological Branch, Depart- ment of Agriculture, Canada; late Government Scholar of the Depart- ment of Agricultural Entomology, Manchester University. (With Two Plates), . . . . .	37
III.	<i>The Gametophyte of Psilotum.</i> By G. P. DARNELL-SMITH, B.Sc., F.I.C. (With Two Plates), . . . . .	79
IV.	<i>The Gametophyte Generation of the Psilotaceæ.</i> By A. ANSTRUTHER LAWSON, D.Sc., Professor of Botany, University of Sydney. (With Five Plates), . . . . .	93
V.	<i>The Moulting of the King Penguin (Aptenodytes patagonica).</i> By Pro- fessor J. COSSAR EWART, F.R.S., and DOROTHY MACKENZIE, F.S.Z.S. (With Two Plates), . . . . .	115
VI.	<i>The Anatomy and Affinity of Stromaopteris moniliformis, Mett.</i> By JOHN M'LEAN THOMPSON, M.A., D.Sc., Senior Assistant to the Professor of Botany, and late Robert Donaldson Research Scholar, Glasgow University. (With Four Plates, and Figures in the Text), . . . . .	133
VII.	<i>A Further Contribution to the Knowledge of Platyzoma microphyllum R. Br.</i> By JOHN M'LEAN THOMPSON, M.A., D.Sc., Glasgow University. (With Seventeen Figures in the Text), . . . . .	157
VIII.	<i>Factorials and Allied Products with their Logarithms.</i> By FRANK ROBBINS, F.R.A.S., . . . . .	167
IX.	<i>The Highland Border Rocks of the Aberfoyle District.</i> By Professor T. J. JEHU and Dr ROBERT CAMPBELL. (With Six Plates and Ten Text-figures), . . . . .	175

NUMBER		PAGE
X.	<i>The Structure, Bionomics, and Forest Importance of Myelophilus minor, Hart.</i> By WALTER RITCHIE, B.Sc., B.Sc. (Agr.); Fullerton Scholar, University of Aberdeen; Research Scholar, University of Edinburgh. (With Two Plates), . . . . .	213
XI.	<i>On Knots, with a Census of the Amphicheirals with Twelve Crossings.</i> By MARY GERTRUDE HASEMAN. (With One Plate), . . . . .	235

---

PART II. (1918-19.)

XII.	<i>The Development of the Heart in Man.</i> By Professor D. WATERSTON, M.D., Bute Medical School, University of St Andrews. (With Eighteen Text-figures and Sixteen Plate-figures), . . . . .	257
XIII.	<i>The Formation, Rupture, and Closure of Ovarian Follicles in Ferrets and Ferret-Polecat Hybrids, and some Associated Phenomena.</i> By Professor ARTHUR ROBINSON, University of Edinburgh. (With Ten Plates), . . . . .	303
XIV.	<i>The Anatomy and Affinity of certain Rare and Primitive Ferns.</i> By JOHN M'LEAN THOMPSON, M.A., D.Sc., Lecturer in Botany, Glasgow University. (With Seven Plates and Thirty Figures in the Text), . . . . .	363
XV.	<i>The Correlation between Relatives on the Supposition of Mendelian Inheritance.</i> By R. A. FISHER, B.A. (With Four Figures in Text) . . . . .	399
XVI.	<i>The Prostate Glands of the Earthworms of the Family Megascolecidae.</i> By J. STEPHENSON, D.Sc., M.B., Lieut.-Col. Indian Medical Service; Professor of Zoology, Government College, Lahore; and HARU RAM, M.Sc., Professor of Zoology, Hindu University, Benares, late Demonstrator of Zoology, Government College, Lahore. (With One Plate), . . . . .	435
XVII.	<i>The Calciferous Glands of Earthworms.</i> By J. STEPHENSON, D.Sc., M.B., Lieut.-Col. Indian Medical Service, Professor of Zoology, Government College, Lahore; and BAINI PRASHAD, D.Sc., Assistant Director of Fisheries, Bengal and Bihar and Orissa, late Assistant Professor of Zoology, Government College, Lahore. (With One Plate and One Text-figure), . . . . .	455
XVIII.	<i>The Morphology of the Prosencephalon of Spinax as a Type of Elasmobranch Fore-brain.</i> By J. STUART THOMSON, M.Sc., Ph.D., Lecturer and Senior Demonstrator in Zoology in the Victoria University of Manchester. (With Two Plates and Three Text-figures), . . . . .	487

## PART III. (1919-20.)

- XIX. *Contributions towards a Knowledge of the Anatomy of the Lower Dicotyledons. II. The Anatomy of the Stem of the Berberidaceæ.* By R. J. HARVEY-GIBSON, C.B.E., D.L., M.A., Professor of Botany, University of Liverpool; and ELSIE HORSMAN, M.Sc. (With One Plate), . . . . . 501
- XX. *Contributions towards a Knowledge of the Anatomy of the Lower Dicotyledons. III. The Anatomy of the Stem of the Calycanthaceæ.* By CHRISTINE E. QUINLAN, M.Sc., University College, Cork. (With One Plate), . . . . . 517
- XXI. *The Comparative Myology of the Shoulder Girdle and Pectoral Fin of Fishes.* By Captain E. W. SHANN, B.Sc., Oundle School. (With Four Plates and One Figure in the Text), . . . . . 531
- XXII. *The Morphology of the Stele of *Platyzoma microphyllum*, R. Br.* By JOHN M'LEAN THOMPSON, M.A., D.Sc., F.L.S., Lecturer on Plant Morphology, Glasgow University. (With Three Plates and Three Figures in the Text), . . . . . 571
- XXIII. *Amphicheiral Knots.* By MARY GERTRUDE HASEMAN, Ph.D. (With One Plate), . . . . . 597
- XXIV. *On Old Red Sandstone Plants showing Structure, from the Rhynie Chert Bed, Aberdeenshire. Part II. Additional Notes on *Rhynia Gwynne-Vaughani*, *Kidston and Lang*; with Descriptions of *Rhynia major*, *n.sp.*, and *Hornea Lignieri*, *n.g.*, *n.sp.** By R. KIDSTON, LL.D., F.R.S., and W. H. LANG, D.Sc., F.R.S., Barker Professor of Cryptogamic Botany in the University of Manchester. (With Ten Plates), . . . . . 603
- XXV. *Theoretical Determination of the Longitudinal Seiches of Lake Geneva.* By A. T. DOODSON, R. M. CAREY, and R. BALDWIN, Tidal Institute, University of Liverpool, . . . . . 629
- XXVI. *On Old Red Sandstone Plants showing Structure, from the Rhynie Chert Bed, Aberdeenshire. Part III. *Asteroxylon Mackiei*, *Kidston and Lang*.* By R. KIDSTON, LL.D., F.R.S., and W. H. LANG, D.Sc., F.R.S., Barker Professor of Cryptogamic Botany in the University of Manchester. (With Seventeen Plates), . . . . . 643

## PART IV. (1920-21.)

- XXVII. *Scottish National Antarctic Expedition, 1902-1904; Cambrian Organic Remains from a Dredging in the Weddell Sea.* By W. T. GORDON, D.Sc., Reader in Geology, University of London, King's College. (With Seven Plates), . . . . . 681

NUMBER	PAGE
XXVIII. <i>New Stellar Facts, and their Bearing on Stellar Theories for the Ferns.</i> By JOHN M'LEAN THOMPSON, M.A., D.Sc., F.L.S., Lecturer on Plant Morphology, Glasgow University. (With Four Plates and Nine Figures in the Text), . . . . .	715
XXIX. <i>Isle of Wight Disease in Hive Bees.</i>	
(1) <i>The Etiology of the Disease.</i> By JOHN RENNIE, D.Sc.; PHILIP BRUCE WHITE, B.Sc.; and ELSIE J. HARVEY. (With One Plate), . . . . .	737
(2) <i>The Pathology of Isle of Wight Disease in Hive Bees.</i> By PHILIP BRUCE WHITE, B.Sc., Bacteriologist to the Bee Disease Investigation, University of Aberdeen and N. of Scotland College of Agriculture. (With One Plate), . . . . .	755
(3) <i>Isle of Wight Disease in Hive Bees—Experiments on Infection with Tarsonemus woodi, n. sp.</i> By ELSIE J. HARVEY, . . . . .	765
(4) <i>Isle of Wight Disease in Hive Bees—Acarine Disease: The Organism associated with the Disease—Tarsonemus woodi, n. sp.</i> By JOHN RENNIE, D.Sc. (With One Plate and Two Figures in the Text), . . . . .	768
XXX. <i>Shackleton Antarctic Expedition, 1914–1917: Depths and Deposits of the Weddell Sea.</i> By J. M. WORDIE, M.A., F.G.S., . . . . .	781
XXXI. <i>Shackleton Antarctic Expedition, 1914–1917: The Natural History of Pack-Ice as observed in the Weddell Sea.</i> By J. M. WORDIE, M.A., F.G.S. (With Nine Text-figures and Four Plates), . . . . .	795
XXXII. <i>On Old Red Sandstone Plants showing Structure, from the Rhynie Chert Bed, Aberdeenshire. Part IV. Restorations of the Vascular Cryptogams and Discussion of their Bearing on the General Morphology of the Pteridophyta and the Origin of the Organisation of Land-Plants.</i> By R. KIDSTON, LL.D., D.Sc., F.R.S., and W. H. LANG, D.Sc., F.R.S., Barker Professor of Cryptogamic Botany in the University of Manchester. (With Five Plates), . . . . .	831
XXXIII. <i>On Old Red Sandstone Plants showing Structure, from the Rhynie Chert Bed, Aberdeenshire. Part V. The Thallophyta occurring in the Peat-Bed; the Succession of the Plants throughout a Vertical Section of the Bed, and the Conditions of Accumulation and Preservation of the Deposit.</i> By R. KIDSTON, LL.D., D.Sc., F.R.S., and W. H. LANG, D.Sc., F.R.S., Barker Professor of Cryptogamic Botany in the University of Manchester (With Ten Plates and One Figure in the Text), . . . . .	855
INDEX, . . . . .	903
