*The Sonomax Sound Amplifier*

## **THE SONOMAX FORTIPHONE FOR THE DEAF**

**T**HE SONOMAX FORTIPHONE, made by the famous electrical firm of Siemens and Halske, marks a new advance in the development of Electrical Hearing Aids for the Deaf. Its unique feature is the Sonomax "waistcoat-pocket" Sound Amplifier. This is an entirely new invention and a genuine achievement in electrical science. Weighing less than 3 oz., it is not excelled in amplifying power by cumbersome box devices weighing several lbs. This tiny Amplifier, in conjunction with an exceptionally sensitive transmitter and an earpiece of new design, enables even the *very* deaf to hear voices, music, etc., clearly and enjoyably without embarrassment or discomfort. The whole apparatus, with the exception of the earpiece, can be concealed upon the person without interference with its efficiency.

The Sonomax Fortiphone is essentially an aid for the very deaf. For "average" deafness the Midget Fortiphone usually suffices. Both the Sonomax Fortiphone and the Midget Fortiphone are

***Approved and recommended by leading Aurists***

Full particulars will gladly be sent and arrangements made for a trial of the Fortiphone, upon request.

# The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

A. LOGAN TURNER AND J. S. FRASER

ASSISTED BY

DOUGLAS GUTHRIE AND WALTER HOWARTH

1. Original Articles are accepted on the condition that they have not been published elsewhere.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter should be added.

4. The order for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.

5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

6. Editorial Communications should be addressed to "EDITORS, *Journal of Laryngology*, c/o Messrs OLIVER AND BOYD, Tweeddale Court, Edinburgh."

7. The Annual Subscription is Forty Shillings, post free, and is payable in advance.

8. Single copies of back numbers, both of the present and the previous series, are on sale at Four Shillings each.

9. An Annual Subscription can be commenced with any number of the Journal, and the preceding numbers of the current year can be purchased at Four Shillings each.

## UNITED STATES OF AMERICA

Orders for this Journal, for single parts or yearly subscriptions, can be sent either through a local bookseller, or to Messrs G. E. STECHERT & Co., 31-33 East 10th Street, New York.

**Just Published. Second Edition. Fully Revised and Enlarged.**  
*Demy 8vo, 464 pp. 234 Text Illustrations and 12 Plates (of which 8 are in colour). 20s. net, Postage 9d.*

# DISEASES OF THE **NOSE, THROAT, AND EAR**

**For Practitioners and Students**

# THE GOLDEN SQUARE THROAT, NOSE AND EAR HOSPITAL

LONDON, W. 1

## HONORARY MEDICAL STAFF

### Surgeons

Mr T. JEFFERSON FAULDER

Mr G. W. DAWSON

Mr GEORGE W. BADGEROW

Mr GILBERT CHUBB

Mr LIONEL COLLEDGE

Mr THEODORE JUST

### Assistant Surgeons

Mr ORMEROD

Mr DINGLEY

Mr BEDFORD RUSSELL

Mr SANDIFORD

The Hospital has recently undergone very extensive reconstruction and extension, and now has 73 beds for In-patients and an annual Out-patient attendance of about 40,000.

## CLINICAL INSTRUCTION

Clinical Instruction in the Diagnosis and Treatment of Diseases of the Ear, Nose and Throat is daily given in the Out-patient Department from 2 to 5 p.m. On Tuesdays and Fridays from 6.30 to 8 p.m. also. Major operations are performed daily, except Mondays, in the In-patient Operating Theatres. Minor operations are performed in the Out-patient Department by the Assistant Surgeons on four mornings a week.

Practitioners and Medical Students are admitted to the practice of the Hospital, and Clinical Assistants, whose duty it is to assist the staff, are appointed from time to time among them. For further information apply to the Dean, THEODORE JUST.

### CHEVALIER JACKSON'S INSTRUMENTS FOR ŒSOPHAGOSCOPY, LARYNGOSCOPY, AND BRONCHOSCOPY

**New Models as made for Walter G. Howarth, F.R.C.S.**

Each Instrument is made in accordance with the details of Chevalier Jackson's most recent models, and each is supplied with a *spare light carrier*, i.e., 2 light carriers and 2 lamps. All the models have been redesigned with a view to rendering them more easily cleansed; all the crevices and corners for the dirt have been taken away.

To ensure better visibility the tips of the forceps are *black*.

The Howarth-Jackson's Instruments are **less expensive than other American or English models**, and a further economy has been effected by rendering the instrument tips interchangeable, thus reducing the number of forceps handles and tips required.

The lamps are 2.5 volt and more durable than the usual models.

*Manufactured only by*

# Anything That Ends In “ ITIS ”

is an indication for the use of antiphlogistic therapy. “ITIS” means inflammation. Inflammation means, in addition to pain, heat, redness and swelling, congestion-circulatory stasis. Stasis of blood in any area favours bacterial activity, increased toxin production, diminished leucocytic and other defensive, reparative and recuperative action.

acts practically, powerfully and promptly to overcome congestion, relieve pain, reduce swelling, promote repair and oppose sepsis, by its chemical heat action, activation of osmosis, abstraction of fluid from tissues and blood.

It is, so to speak, a “physiological poultice”—and something more!

To prove this, test Antiphlogistine, according to directions, in PNEUMONIA, PLEURISY, BRONCHITIS, TONSILITIS, NEURALGIA, ARTHRITIS, or any other condition accompanied by inflammation present during the Winter Season.

And, remember Antiphlogistine “all the year round” for any inflammation reachable by local application.

*We will gladly send you a regular package  
with interesting and valuable booklet, gratis*
