Published for The Animal Consortium  
[www.animal-journal.eu](http://www.animal-journal.eu)

*Advances in Animal Biosciences* is an associated publication to the journal *animal*. It aims to publish high quality conference, symposium and workshop proceedings on animal-related aspects of the life sciences with emphasis on farmed and other managed animals. These can be in the form of a book of abstracts, summaries or complete papers. The format will highlight the title of the meeting and organisations involved but the publications will have the added advantage of forming a series under '*Advances in Animal Biosciences*'.
