Behavioral and Brain Sciences

Editors

Barbara L. Finlay, *Cornell University, USA*

Paul Bloom, *Yale University, USA*

Behavioral and Brain Sciences, with its imposing ISI Impact Factor of 20.771, is an internationally renowned journal with an innovative format. Significant and controversial pieces of work are published from researchers in psychology, neuroscience, behavioral biology or cognitive science, together with 20–30 commentaries on each article from specialists in these disciplines, plus the author's response to them. The result is a unique forum for communication, criticism, stimulation, and unification of research in behavioral and brain sciences – from molecular neurobiology to artificial intelligence and the philosophy of the mind.

Behavioural and Cognitive Psychotherapy

Published for the British Association for Behavioural and
Cognitive Psychotherapies (BABCP)

Editor

Paul M Salkovskis, University of Bath, UK

Behavioural and Cognitive Psychotherapy is an international multi-disciplinary journal aimed primarily at members of the helping and teaching professions. The journal features original research papers, covering both experimental and clinical work, that contribute to the theory, practice and evolution of cognitive and behaviour therapy. Under the guidance of an international editorial team, *Behavioural and Cognitive Psychotherapy* aims to reflect and influence the continuing changes in the concepts, methodology and techniques of behavioural and cognitive psychotherapy. A particular feature of the journal is its broad-ranging scope - both in terms of topics and types of study covered.

CNS Spectrums

Editor-in-Chief

Stephen M. Stahl, *University of California San Diego, School of Medicine, USA*

CNS Spectrums aims to be the premier journal covering all aspects of clinical neurosciences, neurotherapeutics and neuropsychopharmacology, particularly those pertinent to the clinician and clinical investigator. The journal, now bimonthly, features focused, in-depth, illustrated, readable reviews, commentaries, and original research articles. New therapeutics of all types in psychiatry, mental health, and neurology are emphasized, especially first in studies on humans and proof of concept studies. Subject coverage spans the full spectrum of neuropsychiatry, focusing on translational issues and those crossing traditional boundaries between neurology and psychiatry.

(Contents continued)

- WESLEY G. JENNINGS,
MICHAEL ROCQUE,
BRYANNA HAHN FOX,
ALEX R. PIQUERO,
AND DAVID P. FARRINGTON
- 537 Can they recover? An assessment of adult adjustment problems among males in the abstainer, recovery, life-course persistent, and adolescence-limited pathways followed up to age 56 in the Cambridge Study in Delinquent Development
- SALVATORE P. INSANA,
LAYLA BANIHASHEMI,
RYAN J. HERRINGA,
DAVID J. KOLKO,
AND ANNE GERMAIN
- 551 Childhood maltreatment is associated with altered frontolimbic neurobiological activity during wakefulness in adulthood
- ASHLEY C. WOODMAN,
MARSHA R. MAILICK,
AND JAN S. GREENBERG
- 565 Trajectories of internalizing and externalizing symptoms among adults with autism spectrum disorders
- REBECCA L. BROCK
AND GRAZYNA KOCHANSKA
- 583 Toward a developmentally informed approach to parenting interventions: Seeking hidden effects
- DARBY SAXBE,
LARISSA BOROFKY DEL PIERO,
MARY HELEN IMMORDINO-YANG,
JONAS TODD KAPLAN,
AND GAYLA MARGOLIN
- 595 Neural mediators of the intergenerational transmission of family aggression
- REGINA SAILE,
VERENA ERTL,
FRANK NEUNER,
AND CLAUDIA CATANI
- 607 Children of the postwar years: A two-generational multilevel risk assessment of child psychopathology in northern Uganda

(Contents continued)

- ANDRIK I. BECHT,
PETER PRINZIE,
MAJA DEKOVIĆ,
ALITHE L. VAN DEN AKKER,
AND REBECCA L. SHINER
- 399 Child personality facets and overreactive parenting as predictors of aggression and rule-breaking trajectories from childhood to adolescence
- MICHAEL WINDLE,
STEVEN M. KOGAN,
SUNBOK LEE,
YI-FU CHEN,
KARLO MANKIT LEI,
GENE H. BRODY,
STEVEN R. H. BEACH,
AND TIANYI YU
- 415 Neighborhood × Serotonin Transporter Linked Polymorphic Region (*5-HTTLPR*) interactions for substance use from ages 10 to 24 years using a harmonized data set of African American children
- JUNHAN CHO AND
STEVEN M. KOGAN
- 433 Parent and youth dopamine D4 receptor genotypes moderate multilevel contextual effects on rural African American youth's risk behavior
- LISA R. STARR AND
CONSTANCE HAMMEN
- 447 Genetic moderation of the association between adolescent romantic involvement and depression: Contributions of serotonin transporter gene polymorphism, chronic stress, and family discord
- NICHOLAS P. ALLAN,
JULIA W. FELTON,
CARL W. LEJUEZ,
LAURA MACPHERSON,
AND NORMAN B. SCHMIDT
- 459 Longitudinal investigation of anxiety sensitivity growth trajectories and relations with anxiety and depression symptoms in adolescence
- ELIZABETH C. VICTOR
AND AHMAD R. HARIRI
- 471 A neuroscience perspective on sexual risk behavior in adolescence and emerging adulthood
- LIN BAO,
E. B. BROWNLIE, AND
JOSEPH H. BEITCHMAN
- 489 Mental health trajectories from adolescence to adulthood: Language disorder and other childhood and adolescent risk factors
- TERESA C. SILVA AND
HÅKAN STATTIN
- 505 The moderating role of parenting on the relationship between psychopathy and antisocial behavior in adolescence
- CHUN-ZI PENG,
JULIA D. GRANT,
ANDREW C. HEATH,
ANGELA M. REIERSEN,
RICHARD C. MULLIGAN,
AND ANDREY P. ANOKHIN
- 517 Familial influences on the full range of variability in attention and activity levels during adolescence: A longitudinal twin study
- KRISTIN S. LANCEFIELD,
ALESSANDRA RAUDINO,
JOHNNY M. DOWNS, AND
KRISTIN R. LAURENS
- 527 Trajectories of childhood internalizing and externalizing psychopathology and psychotic-like experiences in adolescence: A prospective population-based cohort study
