

## ERRATUM

Due to a typesetting error, a line in one of the essays in our last issue (Vol. 9, No. 2, Summer 1992) was printed incorrectly.

The error occurs in Shelly Kagan's essay "The Limits of Well-Being," at the top of page 182.

The second line on that page currently reads:

(2') A person simply is a collection of mental states.

It should instead read:

(2') A person simply is a body and a mind.
