

Hogarth's Harlot

Sacred Parody in
Enlightenment England

Ronald Paulson

"Ronald Paulson is the world's major scholar on the correspondences between literary and visual satire. In this book we see a senior scholar at the height of

his powers engaged in rescension while striking out into new territory. His scholarship is impeccable and accessible and will be greatly appreciated by scholars and students

of the eighteenth century and the art-loving public."—Paul Korshin, University of Pennsylvania

In 1732, a blasphemous burlesque of the Christian Atonement was published in England without comment from the government or the Church of England. In *Hogarth's Harlot*, Ronald Paulson explains this absence of official censure through a detailed examination of the parameters of blasphemy in eighteenth-century England and the changing attitudes toward the central tenets of the Christian Church among artists in this period. Discerning a profound spiritual and cultural shift from atonement and personal salvation to redemption, incarnation, and acts of charity and love, Paulson focuses on such influential factors as English antipopey and anti-Jacobitism, as well as the ideas of the English Enlightenment.

Criminal and charitable acts

Unconscious Crime

Mental Absence and Criminal
Responsibility in Victorian London

Joel Peter Eigen

"A beautifully crafted and tightly reasoned intellectual history. Joel Peter Eigen introduces readers to the concept of 'double consciousness' as it arose in the nineteenth century through several trials that serve as detailed examples of this phenomenon. The trials themselves are fascinating, and Eigen's approach ensures that his study is sophisticated, precise, and engaging. Eigen is an excellent storyteller who has the ability to move back and forth between the concrete and the abstract."

—Richard Moran, Mount Holyoke College,
author of *Executioner's Current: Thomas Edison, George Westinghouse, and the Invention of the Electric Chair*

Victorian Literature and the Victorian State

Character and Governance in a
Liberal Society

Lauren M. E. Goodlad

"In this impressive book, Lauren Goodlad rethinks a deep-seated tension in British liberalism between self-reliance and civic responsibility. She draws on a wide range of literary and historical sources to explain why liberalism, aspiring to be both rational and liberating, often succeeded in being neither. An engaging and rewarding study which, among its many accomplishments, puts Foucault to new use for Victorian studies."—Christopher Lane, author of *Hatred and Civility: The Antisocial Life in Victorian England*
