COMMONWEALTH INSTITUTE OF ENTOMOLOGY

**Proceedings of the 1st International
Workshop on Biotaxonomy,
Classification and Biology of
Leafhoppers and Planthoppers
(Auchenorrhyncha) of Economic
Importance**

LONDON, 4 OCTOBER–7 OCTOBER 1982

published by the Commonwealth Institute of Entomology

The leafhoppers and planthoppers (Auchenorrhyncha) have become increasingly important in recent years both as vectors of plant diseases and because of the direct damage they cause to crops, including rice, the staple diet of a large proportion of the world's human population.

Progress in their control has been hindered by problems of taxonomy, classification and biology, and in October 1982 an international workshop was held in London to study these problems. The proceedings are now available and contain about 40 papers presented by contributors from countries worldwide.

Paperback, 210 × 150 mm, approx 500 pp. (April 1983)

Price (including surface postage and packing), £6.50

Obtainable from:

Commonwealth Institute of Entomology,
56 Queen's Gate,
London, SW7 5JR, UK.

Tel.: 01-584 0067 Telex: 847964

Distribution maps of pests

Issued by the Commonwealth Institute of Entomology, London

Each of these maps (size 27 × 17 cm) gives the world distribution, together with supporting references, of a particular arthropod pest. Those at present being issued (Series A) deal with pests of importance in relation to agriculture or forestry or their products. Eighteen maps are issued each year in two batches of nine each. Up to May 1982, a total of 437 maps has been issued.

Annual Subscription for 18 maps	£20.00
Complete set (including revisions and index up to 1981)	£80.00
Loose-leaf binder (maps are punched ready for insertion)	£9.00
Single maps (min. order: UK £2, elsewhere £3)	£1.10
