Published for The Animal Consortium
www.animal-journal.eu

Editor-in-Chief

Isabelle Ortigues-Marty, *INRA, Clermont-Theix, France*

animal publishes original cutting-edge research, 'hot' topics and horizon-scanning reviews on animal-related aspects of the life sciences at the molecular, cellular, organ, whole animal and production system levels.

The main subject areas include: breeding and genetics; nutrition; physiology and functional biology of systems; behaviour, health and welfare; farming systems, environmental impact and climate change; product quality, human health and well-being.

67th Meeting of European Federation of Animal Science

Belfast 28 August - 1 September 2016

Livestock systems and science

visit
Belfast

WELCOME TO EUROPE'S LARGEST ANIMAL SCIENCE CONFERENCE

The UK organising committee is delighted to invite you to Belfast for the 67th Annual Meeting of EAAP.

Held at the city's Waterfront Conference Centre from 28 August - 1 September 2016, the event will feature over 1000 presentations from speakers from around the world.

Focusing on **Livestock Systems and Science**, sessions will cover subjects including animal genetics, nutrition, management, health and physiology, as well as sector-specific sessions and science relevant to industry.

Join us in Belfast for the for the biggest and best opportunity for industry and scientists to meet, exchange ideas and work together to implement new science for maximum impact.

British Society of Animal Science

The British Society of Animal Science aims to provide an opportunity for those with an interest in animals and animal science to exchange views, ideas and information. It is an energetic and active society with about 1000 members from over 50 countries throughout the world. Today, as ever, the Society is the natural meeting point for all of those with an interest in animal science. Its membership is drawn from research, education, advisory work, commerce and practical animal keeping.

The Society's Journal is *Animal* which publishes high quality fundamental and applied research and is an exciting international journal of animal bioscience. *Animal* publishes cutting edge research, hot topics and horizon-scanning reviews on animal-related aspects of the life sciences.

The Society organises major scientific and specialist conferences on key issues facing the science related to animals.

If you would like to join or receive further information about the British Society of Animal Science contact:
