All The Facts For Your Immunization Program

Immunizing Healthcare Workers: A Practical Approach

Edited by Gregory A. Poland, MD; William Schaffner, MD; Gina Pugliese, RN, MS
300 pp, Hard Cover, 2000, ISBN 1-55642-450-7, Order # 14507, \$109.00

Immunizing Healthcare Workers: A Practical Approach is the first complete resource for dealing with the immunization of healthcare workers. You can find all of the latest information on successfully and safely implementing or updating your immunization program in this landmark book.

Inside you will find that for each of the vaccine-preventable diseases among workers, there is a discussion of disease risks in the healthcare setting, vaccine recommendations, special administration strategies, safety issues, discussion of unresolved issues, and answers to commonly asked questions. There are also case studies of sample programs in specific settings.

This phenomenal book contains the latest recommendations from the US Public Health Service Advisory Committees, Healthcare Infection Control Practices Advisory Committee (HICPAC), and the Advisory Committee on Immunization Practices (ACIP).

Read how the experts overcame obstacles while setting up immunization programs in their healthcare settings. With over 45 contributors to 32 chapters, **Immunizing Healthcare Workers: A Practical Approach** is an essential source for the latest information necessary to implement an effective immunization program.

Both textbooks are an official publication of
The Society for Healthcare Epidemiology of America (SHEA).

Some Case Study Topics:

- Immunizing Providers and Staff in Physicians' Offices
- Vaccination of Healthcare Workers in Long-Term Care Facilities for the Elderly
- Immunization of Affiliating Students and Contract Home Healthcare Workers
- Immunization Strategies for Home Healthcare Personnel
- Immunization of Workers with Altered Host Defenses
- Vaccinating Unimmunized and Partially Immunized Workers
- Assessing Immunity and Exposures: Using a Computerized Surveillance System
- Managing Information in an Immunization Program
- The Internet: A Quick Guide to Vaccine & Immunization Information

A Practical Handbook for Hospital Epidemiologists

Edited by: Loreen A. Herwaldt, MD and co-edited by Michael D. Decker, MD, MPH
448 pp, Soft Cover, 1998, ISBN 1-55642-302-0,
Order # 13020, \$65.00

A Practical Handbook for Hospital Epidemiologists is the most complete source for practical advice on hospital epidemiology. It is intended to be a pragmatic guide that will assist both beginning and experienced practitioners in establishing and operating a successful hospital epidemiology program. This handbook will supplement the various scientific references already available for this field and will help hospital epidemiologists improve their practices.

Opportunities In INFECTION CONTROL

Team Up With The Best!

1999 Magnet Award recipient for Nursing Excellence

Bring your enthusiasm, dedication and specialized skills in Infection Control to one of New Jersey's finest — **St. Joseph's Hospital & Medical Center**, a major, multi-site 792-bed Tertiary Care and Trauma Center, located in Northern NJ — where you'll experience a professional environment that's second-to-none!

As one of only 15 hospitals to achieve this Magnet status honor, we're looking to attract some of the best and brightest to share in our commitment of providing only the very best in patient care. *Immediate opportunities available include:*

Infection Control Manager • Infection Control Practitioner

These full-time positions require a Bachelor's degree in a health-related discipline (*i.e. nursing, lab technology, etc.*), minimum 2 years experience in Infection Control, and demonstrated knowledge of the NNIS System. Successful candidates must be experienced with data entry, spreadsheets & graphics, and possess the ability to collect, analyze & disseminate data. For manager position, recent related managerial experience would be a definite plus.

In return, you'll enjoy a competitive salary and comprehensive benefits package, including on-site child care. For prompt consideration, please send resume with salary history/requirements to our **Human Resources Dept.**, ... or fax us at (973) 279-1960, attn: EKM. email: kimbelle@sjhmc.org

INFECTION CONTROL PRACTITIONER BRIGHAM & WOMEN'S HOSPITAL-BOSTON

Brigham & Women's Hospital in Boston, MA is looking for a full-time Infection Control Practitioner interested in working with other dynamic practitioners, a Hospital Epidemiologist and Associate Hospital Epidemiologist in an exciting medical setting that includes 8 adult ICUs, a large obstetrical and newborn service and a large ambulatory practice. As part of the Infection Control team, your activities will include implementing initiatives and creating policies and procedures aimed at optimizing patient and employee safety. This position requires: 1.) Master's degree in Public Health/Epidemiology or CIC, and two years' infection control experience at a tertiary care hospital, or 2.) graduate of a school of nursing, medicine, medical technology or public health, BS degree and four years' infection control experience in a tertiary care hospital.

For consideration, please send your resume or contact:
Deborah Yokoe, M.D., M.P.H., Associate Hospital Epidemiologist, Brigham & Women's Hospital, Channing Laboratory, 181 Longwood Ave., Boston, MA 02115;
E-mail: deborah.yokoe@channing.harvard.edu. We are an equal opportunity employer committed to workforce diversity.
