## PERSPECTIVES

- 86 Profile: André Tomlin

## COLUMNS

- 89 Correspondence
- 91 Obituary  
Benjamin (Ben) Steinberg

### Cover image

In this issue (pp. 77-80) Bladon looks at the relationship between fiction and psychiatry, and explores the idea of how psychiatrists as fiction writers can ameliorate the problems of stigma and negative imagery in fictional texts. Racey provides a counterview, arguing that fictional accounts of mental illness should be unethically unobliged.
