

Neuroimaging in Dementia Workshop

Presented by the International Psychogeriatric Association

Saturday, 25 September 2010 • Santiago de Compostela, Spain

ABOUT THE WORKSHOP...

This workshop (supported by an educational grant from GE Healthcare) will provide an in-depth look at four commonly available diagnostic tools, including practical experience in scan interpretation. Utilizing real life examples, participants will be given the opportunity to comment using an interactive polling system as part of the learning process.

WORKSHOP PROGRAMME...

- CT and MR: Basic introduction, advantages and disadvantages, how images are formed and current imaging methods
- Usefulness of CT scanning in Dementia
- MR Imaging: How to rate Medial Temporal Lobe Atrophy in practice
- PET and SPECT: Basic principles, how images are formed, advantages & disadvantages
- Use of Perfusion Imaging in the differential diagnosis of Dementia
- FP-CIT SPECT Imaging: How to rate and interpret scans
- FP-CIT (DATSCAN) SPECT Imaging as a diagnostic tool for the assessment of DLB
- PET in Dementia: Current and future applications including Amyloid Imaging

FACULTY...

John O'Brien, United Kingdom (Co-Chair)
Leonardo Pantoni, Italy (Co-Chair)
Jan Booij, The Netherlands
Klaus Ebmeier, United Kingdom

Karl Herholz, United Kingdom
Giorgos Karas, The Netherlands
Ian McKeith, United Kingdom

Plenary Sessions

Opening Session/Raymond Levy Lecture:

*The 10/66 Dementia Research Group Studies of the prevalence, incidence, impact and aetiology of cognitive and mental disorders in Latin America, India and China – **Martin Prince, United Kingdom***

*Psychosocial intervention (or person-centered care) to prevent and treat agitated behavior in persons with dementia – **Jiska Cohen-Mansfield, Israel / United States***

*Depression in the elderly – How to prevent and treat a heterogeneous disorder – **Jerson Laks, Brazil***

Symposia and Workshops

- **International Psychogeriatric Association Taskforce on BPSD** – Brian Draper, Australia
- **Psychotherapy Workshop** – Ken Laidlaw, Scotland
- **Depression in the elderly** – Luis Agüera Ortiz, Spain
- **Memory clinics around the world** – Ricardo Allegri, Argentina
- **Early onset dementia** – Raymond Koopmans, The Netherlands
- **Mental health and social factors** – Sabine Bährer-Kohler, Switzerland
- **Physical and psychosocial environment: How can it support person-centered care?** – Helle Wijk, Sweden
- **Shifting paradigm in old age psychiatry** – Nicola Lautenschlager, Australia
- **Psychogeriatrics in primary care** – Carlos de Mendonça Lima, Portugal
- **Challenges for carers of patients with dementia** – Presented by: Alzheimer Europe, Alzheimer's Disease International and Alzheimer Spain – Daisy Acosta, Dominican Republic
- **Sociedad Española de Psicogeriatría (SEPG) Symposium** – Raimundo Mateos, Spain
- **Associação Portuguesa de Gerontopsiquiatria (APGP) Symposia**

CAMBRIDGE
UNIVERSITY PRESS

Encourage a Colleague to Join

The **International Psychogeriatric Association (IPA)** is the leading multidisciplinary, international organization dedicated to the advancement of geriatric mental health knowledge.

Benefits of IPA Membership Include

- An opportunity to **interact with colleagues** around the world who share an interest in advancing research, education, and theory about mental health in older people
- **Education and meetings** reflecting the many disciplines in Psychogeriatrics and the collective expertise of the world; IPA members receive special “members only” rates for all our meetings and activities
- A subscription to ***International Psychogeriatrics***, IPA’s peer-reviewed journal, which includes eight issues per year and any additional special-focus supplements
- The ***IPA Bulletin***, an informative quarterly newsletter
- **IPA Online** – the IPA website – including member area with special features including access to fellow members, and the IPA Learning Portal
- Support the **growth of Psychogeriatrics around the world**, including contributing to the Sponsored Member Program to help associations in developing countries pass knowledge to their members

IPA’s membership dues have been adjusted to accommodate the needs of a wide variety of colleagues worldwide. To find out what the membership rates are for your country, please visit www.ipa-online.org.

To join or to obtain a membership application, bookmark the IPA website at <http://www.ipa-online.org>, or contact:

International Psychogeriatric Association

IPA ... Better Mental Health for Older People

International Psychogeriatric Association (IPA)

Representing more than 66 countries around the world, IPA is a unique and diverse professional healthcare community promoting better geriatric mental health — across disciplines, across borders, and across geriatric issues. Psychiatrists, Scientists, Neurologists, Geriatricians, Primary Care Physicians, Epidemiologists, Nurses, Psychologists, Occupational Therapists, Social Workers, and many other healthcare professionals come to the IPA community from all over the globe to discuss, learn, share, and research information about behavioral and biological aspects of geriatric mental health. IPA's leaders and members contribute their wealth of expertise and knowledge from the research, clinical, education, service and program development arenas.

There are many benefits to being a member of IPA, including a subscription to this peer-reviewed journal, *International Psychogeriatrics*. For more information please contact info@ipa-online.org.

Executive Director

Susan M. Oster, *United States*

Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication. The journal's Science Citation Index Impact Factor (2008) is 2.098. Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites (journals.cambridge.org/ipg and www.ipa-online.org).

An up to date version of the journals instructions for contributors can be found at the *International Psychogeriatrics* website journals.cambridge.org/ipg. Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.
