ANNOUNCEMENT

H. Warner Kloepfer Collection of Dermatoglyphic Prints. *The extensive collection of dermatoglyphic prints amassed by the late Dr. H. Warner Kloepfer is presently housed in the Louisiana State University School of Medicine in New Orleans. Included in this collection are handprints and footprints of over 3000 sets of twins and their parents sent to Dr. Kloepfer by the Mendel Institute and by Mothers-of-Twins Clubs throughout the world. Qualified persons interested in continuing Dr. Kloepfer's work are invited to inquire about obtaining access in this valuable collection. Please address inquiries to Dr. Mary Z. Peliás, Department of Biometry, L.S.U. Medical Center, 1901 Perdido St., New Orleans, LA 70112, USA.*

ANNOUNCEMENT

Fifth International Congress on Twin Studies and Seventh International Congress of Human Genetics: Amsterdam and Berlin 1986. *The Fifth International Congress on Twin Studies will take place in Amsterdam on 15-19 September 1986, with registration on Monday 15 in the afternoon and Closing Session on Friday 19 lunch time. This will allow those interested to then proceed to Berlin (~1 hr flight) well in time for the Seventh International Congress of Human Genetics to be held from Monday 22 to Friday 26 September.*
