THE CONSERVATION ATLAS
OF TROPICAL FORESTS

ASIA AND THE PACIFIC

The first complete and authoritative study of the Asia-Pacific region's tropical forests, written under the auspices of the IUCN. A series of essays by over 100 world experts and detailed country-by-country maps compiled by the latest satellite technology.

Part One includes 11 essays covering all aspects of deforestation, and the methods used to control them. Anthropological, social, biological, political and environmental issues are discussed, and backed up with relevant data. Colour photographs illustrate the essays throughout.

Part Two contains a series of 25 colour maps of the 18 countries covered by the Atlas which illustrate different types of forest and existing/proposed conservation areas. Countries are discussed individually, with detailed case studies highlighting problems specific to certain areas. Maps are to scale for easy comparison.

To order your copy of the Atlas, simply fill out the order form and return it to the address below. For further information, or a copy of our colour brochure, please contact: Petra Green, Globe Book Services, Stockton House, 1 Melbourne Place, London WC2B 4LF. Tel. 071 379 4687.

Guide to the Birds of Madagascar

Olivier Langrand

illustrated by Vincent Bretagnolle

translated by Willem Daniels

foreword by H.R.H. Prince Philip

Madagascar, isolated for at least 120 million years and the fourth largest island in the world, is home to a remarkable variety of endemic animals and plants. This book is the first up-to-date and comprehensive guide to the unusual bird life of Madagascar, detailing the appearance, song, habitat, dietary requirements, nesting habits, distribution and status of individual species. Forty watercolour illustrations provide clear and easy identification of all the Malagasy birds.

456pp. 15 line drawings, 24pp. maps + 40 colour plates £35.00
