

THE VIRUS

Life's Enemy

By **KENNETH SMITH**

20 Illustrations. 8s. 6d. net

This, the third volume in The Cambridge Library of Modern Science, deals with a subject of which little was known or imagined until very recent times, but which may yet prove to be of paramount biological, economic, and philosophical importance. It has all the interest of stories of man's courageous and imaginative research, with the added importance that a proper understanding of virus diseases and viruses is essential for the future well-being of mankind.

THE FABRICIAN TYPES OF INSECTS IN
THE HUNTERIAN COLLECTION, VOLUME II

COLEOPTERA

By **ROBERT A. STAIG**

31 plates in colour

27s. 6d. net

(Glasgow University Publication)

This volume continues Dr Staig's systematic description and illustration of Hunter's collection of insects, made about 160 years ago and then classified by Fabricius, which was part of Hunter's bequest to Glasgow. The first volume was published in 1931 and began the description of Coleoptera, which this volume continues.

SMITH, KENNETH M. A further note on the viruses affecting <i>Atropa belladonna</i> and a description of a virus complex attacking <i>Hyoscyamus niger</i> . (With Plate III)	209
ROGERS, W. P. Studies on the nature and properties of the perienteric fluid of <i>Ascaris lumbricoides</i> . (With 13 Figures in the Text)	211
INDEX OF AUTHORS	219
INDEX OF SUBJECTS	220

PARASITOLOGY is published about four times a year. The numbers afterwards are issued in volumes each containing four numbers.

Papers for publication should be sent to Professor D. KEILIN, Molteno Institute, Downing Street, Cambridge. Other communications should be addressed to the University Press, Cambridge.

Papers forwarded to the Editors for publication are understood to be offered to *PARASITOLOGY* alone, unless the contrary is stated.

Contributors receive twenty-five copies of their papers free. Additional copies, not exceeding twenty-five (except in special cases), may be had at cost price: these should be ordered when the final proof is returned.

The subscription price is £2. 15s. per volume (post-free), payable in advance; single numbers 18s. 6d. net (double number 37s. net). Subscriptions may be sent to any Bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, N.W. 1.

The Cambridge University Press has appointed the University of Chicago Press agent for the sale of *Parasitology* in the United States of America.
