

# INDEX

## A

Abbott's gray gibbon (*Hylobates abbotti*) xviii, xxii, xxvi–xxvii; *see also* gibbons (Hylobatidae); *Hylobates* gibbons

abscesses 32, 36, 280, 282, 317

accreditation of captive facilities 235, 238, 244, 245, 247–248, 250, 259, 268, 304, 307

Africa, number and status of captive apes in 261–264

African apes *see* bonobos (*Pan paniscus*); chimpanzees (*Pan troglodytes*); gorillas (*Gorilla* spp.)

age-related diseases 4, 6, 37, 38–40, 277

agile gibbon (*Hylobates agilis*) xxii, xxvi–xxvii; *see also* gibbons (Hylobatidae); *Hylobates* gibbons

agriculture; *see also* domestic animals/livestock; industrial development projects; One Health strategy and disease risk to apes 53, 54–55, 66 expected prevalence 2020–2025 and risks to apes 298–300 and habitat loss/fragmentation/degradation 28, 52, 54–55, 66, 67, 163–164, 165 human–ape conflict 30 poisoning from 287 pollution from 30 sustainable farming 56–58, 60

air sacculitis 27, 35, 277–278, 281

amplifying hosts 12, 317

anemia 30–31, 125, 317

anesthesia use 29, 115, 116, 117–118, 120, 122, 128, 139, 155, 156–158

animal reservoir *see* reservoirs, disease

animal welfare; *see also* captive ape welfare and animal trade 238 barriers and challenges 247–250 health care provision 156 indicators 250–252 legislation and regulations 100, 240–241 and release programs 239 standards of practice 235, 240–247, 259–260 tools, technology and context 252–253 understanding 234, 235–237, 259

*Ankylostoma* spp. 283

*Anopheles* mosquitoes 30, 31, 283; *see also* malaria

anthelmintic treatments 32, 124–125

anthrax 19–20, 89, 277

antibiotics 16, 17, 18, 20, 31, 69, 70, 115, 125, 155

antibodies 32, 33, 34, 36, 94, 126

ape disease and health, review of 10–15, 40–41, 276–287

  captive apes, infectious diseases in 30–36

  captive apes, non-infectious diseases in 36–40

  key findings 15

  sampling 29

  wild apes, infectious diseases in 15–28

  wild apes, non-infectious disease in 28, 30

Ape Heart Project (Twycross Zoo) 39, 71

arboreal locomotion 89, 205, 209, 255, 257, 317

*Ascaris* spp. 283

Asian apes *see* gibbons (Hylobatidae); orangutans (*Pongo* spp.)

## B

*Bacillus anthracis* 19–20, 277

*Bacillus cereus* biovar *anthracis* (Bcbva) 19–20

bacterial diseases 16, 26–28, 277–282; *see also* specific diseases

*Balantidium coli* 282

Batang Toru, Sumatra xvi, 62, 299

bats 21, 22, 278

Berlin Principles of One Health 48, 49, 58, 74

best management practices (BMPs) 64, 80, 81, 91, 95, 97–100, 105; *see also* standard operating procedures (SOPs)

best practice guidelines 26, 36, 97, 98, 99, 112, 128, 181, 210, 219–220, 225

*Best Practice Guidelines for Great Ape Tourism* (Macfie and Williamson) 98

*Best Practice Guidelines for Health Monitoring and Disease Control in Great Ape Populations* (Gilardi *et al.*) 26, 98, 112

*Best Practice Guidelines for Responsible Images* (Waters *et al.*) 97

biopsies 29, 136, 317

biosafety practices 32, 107, 124, 133, 317–318

biosecurity practices 68, 131, 181, 189, 318

bloating 32, 282, 318

bonobos (*Pan paniscus*)

  anthrax 19

  cardiovascular disease 38, 71

  CITES and IUCN listing xiv, xxi

  climate change impacts 171, 172–173

  diet xiv, xxviii, 205

  distribution xiv, xx, xxi, xxiv–xxv

  Ebola virus 21

  habitat types xxvii, xxviii, 205

  home and day ranges xxx, xxxi

  human orthopneumoviruses 288

  life expectancy xiv
