Best Paper in Chinese Theory of Management Award

The ‘theory of Chinese management’ approach (adapting imported theories for the Chinese context) and the ‘Chinese theory of management’ approach (developing original theories for the Chinese context) are both necessary and valuable. To promote original theorizing to account for management phenomena that are particularly salient or unique in China, Peking University Press (PUP) has set up the PUP-*MOR* Best Paper in Chinese Theory of Management Award. The award aims to recognize the best paper published in *MOR* that addresses new research questions, identifies new concepts, and/or develops new theories from the ‘Chinese theory of management’ perspective. The Awards Committee identified three finalists among the papers published in *MOR* for at least five years and judged to be exemplary of the spirit of this award. The three finalist papers can be found on the 2014 IACMR conference website on the ‘Awards’ page. The inaugural award was presented at the 2014 IACMR conference on June 19, 2014 in Beijing. Congratulations to all the finalists and winners.

2014 PUP-*MOR* Award Winner
