

ERRATA CORRIGE

President's Address "Twins and Genetic Studies of Man"
by E. Inouye.

Amendments to the above article, Volume 41, 1992 as follows:

1. **Page 93**, first paragraph, 4th line

.....the significance of environmental factors to the etiology.

should read

the significance of environmental factors contributing to the etiology.

2. **Page 93**, fifth paragraph, 2nd and 3rd lines.

In this respect, starting with the sample individuation of affected cases, which should be as unbiased as possible,

should read

In this respect, sampling of affected cases should be unbiased as far as possible.
