Announcements/Chroniques

International Plato Society

In 1986, at the instigation of Professor Conrado Eggers Lan, the first Symposium Platonicum was held in Mexico; in September of 1989, the second Symposium was held in Perugia, under the organization of Professor Livio Rossetti. During this second Symposium the International Plato Society was formed at an inaugural meeting in Bevagna, with three aims: first, to organize subsequent Symposia Platonica; second, to publish the Proceedings of the Symposia; and third, to compose and circulate to members an annual bibliographical bulletin, containing information (to be provided largely by members themselves) about current or impending publications on Plato throughout the world. It was agreed that full membership should be restricted to those who had published at least one substantial article on Plato (or completed their doctoral dissertation, or the equivalent) in the previous fifteen years, with associate membership available to those working towards their doctorate (or equivalent). A single subscription of $30 U.S. (£20 sterling), covering the three years until the next Symposium, will be payable by each individual member, although special consideration will be given to the case of those members who might find it difficult to transmit foreign currency from within their own countries. The elected Executive Committee consists of Professor Christopher Rowe (Chairman, Bristol), Professor Luc Brisson (Paris), Professor Conradio Eggers Lan (Buenos Aires), Professor Shinro Kato (Tokyo), Professor Tom Robinson (Toronto), Professor Livio Rossetti (Perugia), and Professor Thomas Szlesak (Würzburg). The next Symposium, on the *Politicus*, will be held in Bristol (England) in the late summer of 1992.

Applications for membership of the Society should be directed to the Chairman of the Committee, Professor Christopher Rowe (Department of Classics and Archaeology, University of Bristol, 11 Woodland Road, Bristol BS8 1TB, England). Details of publications for inclusion in the bibliographical bulletin should also be sent to the same address.

Call for Papers

We seek essays for a volume exploring connections of gender to traditional problematics of knowledge including truth, justification, belief, agency and power. We also welcome critiques of traditional epistemologies as well as new feminist epistemologies. For further information call or write to Linda Alcoff, Department of Philosophy, Syracuse University, Syracuse, NY 13244; (315) 443-2068; or Elizabeth Potter, Department of Philosophy, Hamilton College, Clinton, NY 13323; (315) 859-4124.

Call for Papers

Artificial Intelligence and Philosophy is a new international journal devoted to the analysis and discussion of the problems and issues arising from the intersection of artificial intelligence and philosophy. Special attention will be paid to the philosophy of knowledge engineering; computation and representation; programs, brains, and minds; computation and logic; computation, modality, and intentionality; self-referent, self-programming and self-conscious automata; machine versus human understanding; computation and epistemology; computer-aided philosophy of science; philosophy software; social and ethical problems of AI research and technology; and man-machine co-existence.

Manuscripts for publication should be sent in duplicate to the Editor: Professor K. S. Zadeh, University of Münster Medical Institutions, Informatics Department, Domagk Str. 9, Münster, West Germany 4400.

Electronic manuscripts are preferred. Details and Guidelines For Submissions may be obtained from the publisher: Burgverlag, P.O. Box 1247, Tecklenburg, West Germany 4542.

REVUE INTERNATIONALE DE PHILOSOPHIE

Directeur : Michel MEYER
