

# International Psychogeriatric Association

## Better Mental Health for Older People

IPA NEEDS YOU!

### About IPA

The International Psychogeriatric Association (IPA), founded in 1982 and representing members in more than 50 countries, is a unique and diverse professional healthcare community promoting better geriatric mental health – across disciplines, across borders, and across geriatric issues. Psychiatrists, scientists, neurologists, geriatricians, primary care physicians, epidemiologists, nurses, psychologists, occupational therapists, social workers, and many other healthcare professionals come to the IPA community from all around the world to discuss, learn, share and research information about behavioral and biological aspects of geriatric mental health. IPA promotes research and education, facilitates an international exchange of ideas, and fosters cross-cultural understanding of the latest developments in the field.

### IPA Membership

The International Psychogeriatric Association (IPA) encourages professionals from all backgrounds related to geriatric mental health to join our healthcare community. Here are some of the many benefits of joining IPA:

- Unique opportunities to interact with colleagues around the world how share an interest in advancing research, education, and theory about mental health care in older adults.
- Valuable discounts on participation in education and scientific meetings which reflect the full spectrum of disciplines related to psychogeriatrics. Reduced registration rates for the annual IPA International Congress and IPA Regional Meetings are included.
- Relevant publication on updates in the field, including *International Psychogeriatrics*, IPA's peer reviewed journal which publishes twelve issues per year and additional special-focus supplements.
- Access to online educational materials and *The IPA Complete Guides to Behavioral and Psychological Symptoms of Dementia (BPSD)*.
- Subscription to the *IPA Bulletin*, IPA's newsletter which features articles on advances in the field and information on upcoming programs around the world.
- Participation in the IPA Member Forums – smaller member groups which enable members to connect with one another and collaborate on research and clinical care practices. These forums reflect the diversity of interests within geriatric mental health.

### How to Join

To learn more about IPA and become a member, please visit our website: [www.ipa-online.org](http://www.ipa-online.org). IPA offers a one-year membership for \$160 USD. One-year student or retired memberships are available for \$99 USD. **A limited number of Lifetime Memberships are also available for \$1000 USD.** The IPA Secretariat is available to answer any questions you may have about IPA or membership. Please contact us at +1 414 918 9889 or by email at [info@ipa-online.org](mailto:info@ipa-online.org).

## Scope and contributions

*International Psychogeriatrics* is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are usually reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about one-third of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.423 (2016). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites ([journals.cambridge.org/ipg](http://journals.cambridge.org/ipg) and [www.ipa-online.org](http://www.ipa-online.org)).

An up to date version of the journal's instructions for contributors can be found at the *International Psychogeriatrics* website [journals.cambridge.org/ipg](http://journals.cambridge.org/ipg). Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

**Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.**

## Issue Theme: Mild Cognitive Impairment

### CONTENTS

- Commentaries** 1419 **Improving the diagnosis and prediction of progression in mild cognitive impairment**  
Naoheed Mukadam
- 1423 **The concept of mild cognitive impairment: a victim of its ubiquity**  
Cynthia A. Munro
- 1427 **Mild cognitive impairment: some steps forward**  
Raimundo Mateos
- Theme Articles** 1431 **Evolution and future directions for the concept of mild cognitive impairment**  
Stina Saunders, Karen Ritchie, Tom C. Russ, Graciela Muniz-Terrera and Craig W. Ritchie
- 1435 **Does a cognitive stress test predict progression from mild cognitive impairment to dementia equally well in clinical versus population-based settings?**  
Joanne C. Beer, Beth E. Snitz, Chung-Chou H. Chang, David A. Loewenstein and Mary Ganguli
- 1447 **Challenge levels of everyday technologies as perceived over five years by older adults with mild cognitive impairment**  
Annicka Hedman, Anders Kottorp, Ove Almkvist and Louise Nygård
- 1455 **Validity of a novel computerized screening test system for mild cognitive impairment**  
Jin-Hyuck Park, Minye Jung, Jongbae Kim, Hae Yean Park, Jung-Ran Kim and Ji-Hyuk Park
- Original Research Articles** 1465 **Associations between modifiable lifestyle factors and multidimensional cognitive health among community-dwelling old adults: stratified by educational level**  
Manqiong Yuan, Jia Chen, Yaofeng Han, Xingliang Wei, Zirong Ye, Liangwen Zhang, Y. Alicia Hong and Ya Fang
- 1477 **Longitudinal associations between different dementia diagnoses and medication use jointly accounting for dropout**  
George O. Agogo, Christine M. Ramsey, Danijela Gnjidic, Daniela C. Moga and Heather Allore
- 1489 **Risk factors of geriatric depression in rural China based on a generalized estimating equation**  
Dongdong Zhao, Caiyun Hu, Jian Chen, Bao Dong, Qiongqiong Ren, Dandan Yu, Yuanyuan Zhao, Jie Li, Yujun Huang and Yehuan Sun
- 1499 **Use of FDA approved medications for Alzheimer's disease in mild dementia is associated with reduced informal costs of care**  
Stephanie Behrens, Gail B. Rattinger, Sarah Schwartz, Joshua Matyi, Chelsea Sanders, M. Scott DeBerard, Constantine G. Lyketsos and JoAnn T. Tschanz
- 1509 **Subjective well-being and oral discomfort in older people**  
Maria Vieira de Lima Saintrain, Thâmara Manoela Marinho Bezerra, Flaviano da Silva Santos, Suzanne Vieira Saintrain, Lucianna Leite Pequeno, Raimunda Magalhães da Silva and Anya Pimentel Gomes Fernandes Vieira-Meyer
- 1519 **Relationships among person-centered care, nursing home adjustment, and life satisfaction: a cross-sectional survey study**  
Ju Young Yoon
- 1531 **Older women who died by suicide: suicide means, sociodemographic and psychiatric risk factors, and other precipitating circumstances**  
Namkee G. Choi, Diana M. DiNitto, Atami O. Sagna and C. Nathan Marti
- 1541 **The evaluation and design of a short depression screening tool in Turkish older adults**  
Ozge Dokuzlar, Pinar Soysal, Cansu Usarel and Ahmet Turan Isik
- 1549 **Correlates of nursing care burden among institutionalized patients with dementia**  
Meng Sun, Brian J. Mainland, Tisha J. Ornstein, Gwen Li Sin and Nathan Herrmann
- 1557 **Metabolic side effects of atypical antipsychotics in older adults**  
Emme Chacko, Stephen Boyd and Rinki Murphy
- Letters to the Editor** 1567 **Foreign domestic workers providing long-term care for frail seniors at home**  
Sora Yasri and Viroj Wiwanitkit
- 1569 **Attended with and head-turning sign can be clinical markers of cognitive impairment in older adults**  
J. C. Williamson and A. J. Larner
- 1571 **Factors affecting sensitivity and specificity of head-turning sign in the studies**  
Pinar Soysal and Ahmet Turan Isik
- 1573 **How Argentina is training their mental health residents to face its Silver Tsunami?**  
Sergio A. Strejilevich, Florencia Vallejos and Julian Bustin
- 1575 **An evaluation of YouTube in disseminating dementia knowledge to older Chinese in Britain**  
Benjamin K.P. Woo
- Corrigendum** 1577 **Exploring dementia management attitudes in primary care: a key informant survey to primary care physicians in 25 European countries - CORRIGENDUM**  
Hakan Yaman
