

International Journal of Disability Management

Published for the International Forum on Disability Management

Editor-in-Chief

Nicholas Bellamy, *University of Queensland, Australia*

International Journal of Disability Management publishes research findings in areas including prevention of injury and disability, occupational rehabilitation and employment of people with injury and disability. The journal has a particular aim of encouraging and publishing findings from studies conducted in a range of countries that focus on disability management interventions in the workplace.

Medicine

Books and Journals from
Cambridge University Press

The Cambridge Medicine programme focuses its book publishing in a defined set of core clinical areas with our great strength in the clinical brain sciences. Other specialties of significant focus include reproductive medicine/obstetrics and gynaecology, anaesthesia and critical care, emergency medicine and pathology.

Our journals programme covers a broad spectrum of medical disciplines including emergency and disaster medicine, epidemiology and infectious diseases, biomedical science, genetics, nutrition, mental health and psychiatry, and neuroscience.

We partner with many learned societies including The Society for Healthcare Epidemiology of America, and the Neuroscience Education Institute, and the Royal College of Obstetricians and Gynaecologists.
