

PROCEEDINGS  
OF  
THE ROYAL SOCIETY  
OF  
EDINBURGH.

VOL. X.

NOVEMBER 1878 TO JULY 1880.

EDINBURGH :  
PRINTED BY NEILL AND COMPANY.

MDCCCLXXX.

## CONTENTS.

---

|  | PAGE |
|--|------|
| Election of Office-Bearers, 1878-79, . . . . .   | 1    |
| Opening Address. Session 1878-79. By the President, Professor<br>Kelland, . . . . .  | 2    |
| On the Action of Light on the Iris. By William Ackroyd, F.I.C.,<br>&c. Communicated by Professor M'Kendrick, . . . . .                                 | 37   |
| On a New Variety of Ocular Spectrum. By John Aitken, . . . . .   | 40   |
| On the Principles of the Logical Algebra; with Applications.<br>Part I. By Alexander Macfarlane, M.A., D.Sc., . . . . .                                | 44   |
| Note on Ulodendron and Halonia. By D'Arcy Wentworth<br>Thompson. Communicated by Sir Wyville Thomson, . . . . .  | 44   |
| Notes on some Experiments with the Telephone. By James Blyth,<br>M.A., . . . . .   | 45   |
| On the Measurement of Beknottedness. By Professor Tait, . . . . .  | 48   |
| Preliminary Note on the Measurement of the Thomson Effect by<br>the aid of Currents from the Gramme Machine. By Professor<br>Tait, . . . . .           | 49   |
| On the Disruptive Discharge of Electricity. By Alexander Mac-<br>farlane, D.Sc., and P. M. Playfair, M.A., . . . . .                                   | 50   |
| Laboratory Note. By Professor Tait, . . . . .  | 52   |
| On the Action of Heat on the Salts of Trimethyl-sulphine. No. III.<br>By Professor Crum Brown and J. Adrian Blaikie, B.Sc., . . . . .                  | 53   |
| Experimental Determination of the Electromotive Force of the<br>Gramme Magneto-Electric Machine at different Speeds. By Pro-<br>fessor Tait, . . . . . | 55   |
| On the Law of Cooling of Bars. By Professor Tait, . . . . .  | 55   |
| Note of the Distribution of Temperature under the Ice in Linlithgow<br>Loch. By J. Y. Buchanan, M.A., . . . . .  | 56   |
| On the Principles of the Logical Algebra; with Applications.<br>Part II. By Alexander Macfarlane, M.A., D.Sc., . . . . .                               | 61   |
| Remarks by the Vice-President, David Milne Home, LL.D., on de-<br>livering to Professor Heddle the Keith Prize, . . . . .                              | 62   |
| Chapters on the Mineralogy of Scotland. By Professor Heddle.<br>Chapter V., . . . . .  | 64   |

|  | PAGE |
|--|------|
| On the Carboniferous Volcanic Rocks in the Basin of the Firth of Forth—their Structure in the Field and under the Microscope. By Professor Geikie, F.R.S., . . . . .   | 65   |
| Exhibition of Specimens of Auriferous Quartz from the Leadhills District. By Patrick Dudgeon, Esq. of Cargen, . . . . .  | 67   |
| On some Physiological Results of Temperature Variation. By J. B. Haycraft, M.B., C.M. Communicated by Professor Turner, . . . . .  | 68   |
| On the Elasticity of the Walls of the Arteries and Veins. By Dr Roy. Communicated by Dr George W. Balfour, . . . . .   | 68   |
| Further Note on the Distribution of Temperature under the Ice in Linlithgow Loch. By J. Y. Buchanan, M.A., . . . . .   | 68   |
| Heating and Ventilating of Churches and other Buildings: Report of a series of Experiments made in a Hall in Upper Grove Place. By Charles J. Henderson, Edinburgh. Communicated by Professor Jenkin, . . . . .                    | 72   |
| Chapters on the Mineralogy of Scotland. Chapter VI. "Chloreitic Minerals." By Professor Heddle, . . . . .  | 76   |
| On Deep-Sea Thermometers. By J. Y. Buchanan, . . . . .   | 77   |
| Preliminary Note on a Crystalline Compound formed in Water containing Sulphuretted Hydrogen and Mercaptan in Solution. By J. Adrian Blaikie, B.Sc., . . . . .  | 87   |
| Laboratory Notes. By Professor Tait—   |      |
| (1.) Measurements of the Electromotive Force of the Gramme Machine at different Speeds, . . . . .  | 90   |
| (2.) On the Law of Extension of India-rubber at different Temperatures, . . . . .  | 92   |
| Election of Four Foreign Honorary Fellows, . . . . .   | 92   |
| On Gravitational Oscillations of Rotating Water. By Sir William Thomson, . . . . .   | 92   |
| On the Effects of Chloroform, Ethidene Dichloride, and Ether on Blood-Pressure. By Joseph Coats, M.D., William Ramsay, Ph.D., and John G. M'Kendrick, M.D., University of Glasgow. Communicated by Professor M'Kendrick, . . . . . | 100  |
| Experiments with Rotating Discs. By John Aitken. Communicated by Professor M'Kendrick, . . . . .   | 102  |
| General Theorems on Determinants. By Thomas Muir, M.A., . . . . .  | 102  |
| Preliminary Note on Alternants. By Thomas Muir, M.A., . . . . .  | 102  |
| Professor Geddes's Theory of the "Iliad." By Professor Blackie, . . . . .  | 103  |
| The Principles of the Algebra of Logic. Part III.—Application to certain Problems in the Theory of Probability. By Dr Alexander Macfarlane, . . . . .  | 105  |
| The Anatomy of the Northern Beluga ( <i>B. Catodon</i> ) compared with that of other Whales. By Morrison Watson, M.D., and Alfred H. Young, M.B., &c., Owens College, Manchester, . . . . .  | 112  |
| Fifth Report of the Boulder Committee. By D. Milne Home, LL.D., . . . . .  | 113  |
| Notes by William Jolly, Inverness, on the Transportation of Rocks found on the South Shores of the Moray Firth, . . . . .  | 178  |

|  | PAGE |
|--|------|
| Observations on Boulders and Drift on the Pentland Hills. By Alexander Somervail, Edinburgh, . . . . .   | 186  |
| Notes on Drift and Glacial Phenomena on the Pentland Hills. By John Henderson, Curator of the Phrenological Museum, Edinburgh, . . . . .   | 187  |
| References, by Dr Charles Maclaren and Professor Geikie, to Striæ and Boulders on the Pentlands, . . . . .   | 189  |
| Remarks on the Boulder Report. By D. Milne Home, LL.D., . . . . .  | 192  |
| Quaternion Investigations connected with Minding's Theorem. By Professor Tait, . . . . .   | 200  |
| The Pituri Poison of Australia ( <i>Duboisia Hopwoodii</i> , F. Mueller): its Physiological Action and Active Principle. By Dr Thomas R. Fraser, Professor of Materia Medica in the University of Edinburgh, . . . . . | 200  |
| On the Structure and Affinities of the Platisomidæ. By Dr F. Traquair, . . . . .   | 202  |
| Note on the Probability that a Marriage entered into by a Man above the age of 40 will be Fruitful. By Thomas Bond Sprague, M.A., Plate XIV., . . . . .  | 202  |
| Notice of the Death of the President of the Society. By Sir Alexander Grant, Bart., Vice-President, . . . . .  | 208  |
| Why the Barometer does not always indicate the Real Weight of the Mass of Atmosphere aloft: a continuation of the Paper on this subject laid before the Society in Session 1876 and 1877. By Robert Tennent, . . . . . | 212  |
| On some New Bases of the Leucoline Series. Part II. By G. Carr Robinson and W. L. Goodwin, . . . . .   | 224  |
| On a Calculus of Relationship. By Alex. Macfarlane, M.A., D.Sc., . . . . .   | 224  |
| On the Carboniferous Volcanic Rocks of the Basin of the Firth of Forth: their Structure in the Field and under the Microscope. Second Paper. By Professor Geikie, . . . . .  | 232  |
| Additional Observations on the Fungus Disease, affecting Salmon and other Fish. By A. B. Stirling, Assistant Curator of the Anatomical Museum of the University of Edinburgh, . . . . .                                | 232  |
| On the Form and Structure of the Teeth of <i>Mesoplodon Layardii</i> and <i>Mesoplodon Sowerbyi</i> . By Professor Turner, M.B., . . . . .   | 250  |
| Atomicity or Valence of Elementary Atoms: Is it constant or variable? By Professor Crum Brown, . . . . .   | 252  |
| Action of Heat on some Salts of Trimethyl-sulphine. No. IV. By Professor Crum Brown and J. Adrian Blaikie, D.Sc., . . . . .  | 253  |
| Comparison of the Salts of Diethylmethyl-sulphine and Ethyl-methylethyl-sulphine. By Professor Crum Brown and J. Adrian Blaikie, D.Sc., . . . . .  | 254  |
| On the Bursting of Firearms when the Muzzle is closed by Snow, Earth, Grease, &c. By Professor George Forbes, . . . . .  | 254  |
| On some New Bases of the Leucoline Series. Part III. By G. Carr Robinson and W. L. Goodwin, . . . . .  | 256  |
| Notice of Striated Rocks in East Lothian and some of the adjoining Counties. By David Milne Home, LL.D., . . . . .   | 256  |

|   | PAGE    |
|---|---------|
| On Methods in Definite Integrals. By Professor Tait, . . . . .  | 271     |
| Measures of certain Radiometer Constants. By Professor Tait, . . . . .  | 272     |
| Further Researches on Minding's Theorem. By Professor Tait, . . . . .   | 272     |
| On the Transmission of Sound by Loose Electrical Contact. By James Blyth, M.A., . . . . .   | 272     |
| Remarks by the Vice-President, David Milne Home, LL.D., on delivering the Makdougall-Brisbane Prize to Professor Geikie, . . . . .  | 272     |
| The Solar Spectrum in 1877-8; with some Idea of its Probable Temperature of Origination. By Piazzi Smyth, Astronomer-Royal for Scotland, . . . . .  | 274     |
| On another Method of Preparing Methylamine. By R. Milner Morrison, D.Sc., . . . . .   | 275     |
| On the Composition of "Reh," an Efflorescence on the Soil of certain Districts in India, By J. Gibson, Ph.D., . . . . .   | 277     |
| On Spherical Harmonics. By Professor Tait, . . . . .  | 280     |
| Proposed Theory of the Progressive Movement of Barometric Depressions. By Robert Tennent, F.M.S., . . . . .   | 280     |
| On the Solution of the Simultaneous Equations:— $ax+by=c$ and $dx+ey=f$ , when the Symbols denote Qualities. By Alexander Macfarlane, D.Sc., . . . . .  | 283     |
| Donations to the Library during Session 1878-79, . . . . .  | 285-314 |
| Election of Office-Bearers, 1879-80, . . . . .  | 315     |
| Opening Address by the President, The Right Hon. Lord Moncreiff, . . . . .  | 316     |
| Obituary Notices of Fellows, Session 1879-80, . . . . .   | 321     |
| On the Expansion of Cast Iron while Solidifying. By J. B. Hannay, F.R.S.E., F.C.S., and Robert Anderson, . . . . .  | 359     |
| Researches on Contact Electricity. By C. G. Knott, Sc.D. Communicated by Professor Tait, . . . . .  | 362     |
| On an Instrument for detecting Coal-Gas in Mines, By Professor George Forbes, . . . . .   | 365     |
| On Comets. By Professor Tait, . . . . .   | 367     |
| Additional Observations on Fungus Disease of Salmon and other Fish. By A. B. Stirling, Assistant-Curator in the Museum of Anatomy in the University of Edinburgh. Communicated by Prof. Turner, . . . . . | 370     |
| The Trigonometrical Survey of Palestine. By Lieut. Claude Reignier Conder, R.E., . . . . .  | 379     |
| On Minding's System of Forces. By Professor Chrystal, . . . . .   | 397     |
| Mathematical Notes. By Professor Tait—  |         |
| <i>a.</i> On a Problem in Arrangements, . . . . .   | 400     |
| <i>b.</i> On a Graphical Solution of the Equation $\sum \rho \phi \rho = 0$ , . . . . .   | 402     |
| Part of the Material employed by Principal Forbes in Tamping the Bore for his Earth Thermometers at the Edinburgh Observatory was exhibited in its altered state, . . . . .                               | 405     |
| A New Method of investigating Relations between Functions of the Roots of an Equation, and its Coefficients. By J. D. H. Dickson, M.A., . . . . .   | 405     |
| Remarks on Mr Crookes' Recent Experiments. By Prof. George Forbes, . . . . .  | 405     |

|   | PAGE |
|---|------|
| Additional Note on Minding's Theorem. By Professor Tait,  | 407  |
| Private Business—Alteration of Law XVII., and Addition to Law XV.—Letter from the Society to Dr Balfour on his resigning the office of General Secretary, and Dr Balfour's Letter in reply, | 408  |
| On the Distribution of Temperature under the Ice in Frozen Lakes. By John Aitken,   | 409  |
| Remarks on the Aborigines of the Andaman Islands. By Surgeon E. S. Brander, M.B., C.M., H.M. Bengal Medical Staff, Second Medical officer, Port Blair and Nicobars, Plate XV.,              | 415  |
| The Action of Sulphide of Potassium upon Chloroform. By W. W. J. Nicol, M.A. Communicated by Professor Crum Brown,  | 425  |
| Note on the Elimination of Linear and Vector Functions. By Professor Tait,  | 425  |
| On the Geology of the Rocky Mountains. By Professor Geikie,   | 426  |
| On Comets. By Professor Forbes,   | 426  |
| Note on the Velocity of Gaseous Particles at the Negative Pole of a Vacuum Tube. By Professor Tait,   | 430  |
| On Steam-pressure Thermometers of Sulphurous Acid, Water, and Mercury. By Sir W. Thomson,   | 432  |
| On a Sulphurous Acid Cryophorus. By Sir W. Thomson,   | 442  |
| Vibrations of a Columnar Vortex. By Sir William Thomson,  | 443  |
| The Structure of the Comb-like Branchial Appendages and the Teeth of the Basking Shark ( <i>Selache maxima</i> ). By Professor Turner, M.B., F.R.S.,  | 457  |
| Preliminary Report on the TUNICATA of the "Challenger" Expedition. By W. A. Herdman, B.Sc., Baxter Scholar in Natural Science in the University of Edinburgh,                               | 458  |
| On some Applications of Rotatory Polarization. By Professor Tait,   | 473  |
| The Topography of Jerusalem. By Lieut. Claude Reignier Conder, R.E.,  | 474  |
| The Geology of the Farøe Islands. By James Geikie, LL.D., F.R.S.S.L. & E.,  | 495  |
| Meteorological Note by Mr Alexander Wallace. Communicated by Professor Piazzi Smyth,  | 500  |
| On the Colouring of Maps. By Professor Tait,  | 501  |
| On the Structure and Origin of Coral Reefs and Islands. By John Murray,   | 505  |
| Rock-Weathering, as illustrated in Edinburgh Churchyards. By Professor Geikie, Plate XIV.,  | 518  |
| On a Realised Sulphurous Acid Steam-Pressure Thermometer, and on a Sulphurous Acid Steam-Pressure Differential Thermometer. By Sir William Thomson,   | 532  |
| On a Differential Thermoscope founded on Change of Viscosity of Water with Change of Temperature. By Sir William Thomson,   | 537  |
| On a Thermomagnetic Thermoscope. By Sir William Thomson,  | 538  |
| On a Constant Pressure Gas Thermometer. By Sir W. Thomson,  | 539  |
| On the Occultation of the Star 103 Tauri. (B. A. C. 1572.) By Edward Sang,  | 546  |

|   | PAGE |
|---|------|
| On Currents produced by Friction between conducting Substances, and on a new form of Telephone Receiver. By James Blyth, M.A., . . . . .  | 548  |
| Note on the Present Outbreak of Solar Spots. By Professor Piazzi Smyth, . . . . .   | 554  |
| Positive and Negative Electric Discharge between a Point and a Plate and between a Ball and a Plate. By Alexander Macfarlane, M.A., D.Sc., . . . . .  | 555  |
| Researches in Thermometry. By Edmund J. Mills, D.Sc. Communicated by Professor Crum Brown, . . . . .  | 562  |
| Preliminary Notice of a Method for the Quantitative Determination of Urea in the Blood. By John Haycraft, M.B., B.Sc., . . . . .  | 564  |
| On the Phenomena of Variation and Cell-Multiplication in a Species of Enteromorpha. By Patrick Geddes. Communicated by Professor A. Dickson, . . . . .  | 571  |
| On the Accurate Measurements of High Pressures. By Professor Tait, . . . . .  | 572  |
| Sixth Report of the Boulder Committee, Plates XVII., XVIII., XIX., . . . . .  | 577  |
| On Two Masks and a Skull from Islands near New Guinea. By Professor Turner, . . . . .   | 635  |
| On an Ultra-Neptunian Planet. By Professor G. Forbes, . . . . .   | 636  |
| Remarks by the Chairman, J. H. Balfour, M.D., on delivering to Professor Fleeming Jenkin the Keith Prize, . . . . .   | 637  |
| Non-Euclidean Geometry. By Professor Chrystal, . . . . .  | 638  |
| Note on the Theory of the "15 Puzzle." By Professor Tait, . . . . .   | 664  |
| On the Constitution of Adult Bone-Matrix and the Functions of Osteoblasts. By De Burgh Birch, M.B., Demonstrator of Physiology in the University of Edinburgh, . . . . .  | 666  |
| On Two Unrecorded Eggs of the Great Auk ( <i>Alca impennis</i> ) discovered in an Edinburgh Collection; with Remarks on the former existence of the Bird in Newfoundland. By Robert Gray, . . . . .                                   | 668  |
| On a New Telephone Receiver. By Professor Chrystal, . . . . .   | 682  |
| On the Differential Telephone, and on the Application of the Telephone generally to Electrical Measurement. By Professor Chrystal, . . . . .  | 685  |
| On the Determination of the Specific Heat of Saline Solutions. By Thomas Gray, B.Sc., Demonstrator in Physics, and Instructor in Telegraphy, Imperial College of Engineering, Tokio, Japan. Communicated by Professor Tait, . . . . . | 689  |
| On a "Navigational" Sounding Machine. By J. Y. Buchanan, . . . . .  | 694  |
| On the Compressibility of Glass. By J. Y. Buchanan, . . . . .   | 697  |
| Suggestions on the Art of Signalling. By Alexander Macfarlane, M.A., D.Sc., . . . . .   | 698  |
| Note on the Wire Microphone. By R. M. Ferguson, Ph.D., . . . . .  | 700  |
| On the Peroxides of Zinc, Cadmium, Magnesium, and Aluminium. By J. Gibson, Ph.D., and R. M. Morison, D.Sc., . . . . .   | 706  |
| On the Processes in Subepiphysal Bone Growth and some points in Bone Resorption. By De Burgh Birch, M.B., Demonstrator of Physiology in the University of Edinburgh, . . . . .  | 706  |

*Contents.*

ix

|  | PAGE |
|--|------|
| On the Wire Telephone and its Application to the Study of the Properties of strongly Magnetic Metals. By Professor Chrystal,   | 707  |
| Notice of the Completion of the new Rock Thermometers at the Royal Observatory, Edinburgh, and what they are for. By Professor Piazzzi Smyth,  | 710  |
| Report on Fossil Fishes collected by the Geological Survey of Scotland in Roxburghshire and Dumfriesshire. Part I.—Ganoidei. By Dr R. H. Traquair,   | 710  |
| On Some New Crustacea from the Cementstone Group of the Calcareous Sandstone Series of Eskdale and Liddesdale. By B. N. Peach, F.G.S., of the Geological Survey of Scotland. Communicated by Professor Geikie, | 711  |
| Gaseous Spectra in Vacuum Tubes. By Professor Piazzzi Smyth,   | 711  |
| On the Diffusion of an Impalpable Powder into a Solid Body. By R. Sydney Marsden, D.Sc.,   | 712  |
| On the Variation with Temperature of the Electric Resistance of certain Alloys. By Professor J. G. MacGregor and C. G. Knott, D.Sc.,   | 714  |
| Preliminary Report on the TUNICATA of the "Challenger" Expedition. Part II. By W. A. Herdman, D.Sc.,   | 714  |
| Description of New Astronomical Tables for the Computation of Anomalies. By Edward Sang,   | 726  |
| The Discharge of Electricity through Olive Oil. By A. Macfarlane, D.Sc., and P. M. Playfair, M.A.,   | 727  |
| Note on the Colouring of Maps. By Frederick Guthrie,   | 727  |
| Remarks on the previous Communication. By Professor Tait,  | 729  |
| Note on the Wire Telephone as a Transmitter. By James Blyth, M.A.,   | 730  |
| Further Note on Graphitoid Boron and the Production of Nitride of Boron. By R. Sydney Marsden, D.Sc.,  | 733  |
| DONATIONS TO THE LIBRARY,  | 735  |
| INDEX,   | 769  |

PROCEEDINGS  
OF THE  
ROYAL SOCIETY OF EDINBURGH.

VOL. X.

1878-79.

No. 103.

ERRATA.

Page 700, line 8, for "Microphone," read "Telephone."  
.. 702, line 14, for "onset," read "set."

HIS GRACE THE DUKE OF ARGYLL.  
SIR ROBERT CHRISTISON, BART., M.D.  
SIR WILLIAM THOMSON, KNT., LL.D.

*Vice-Presidents.*

|                                   |                               |
|-----------------------------------|-------------------------------|
| DAVID STEVENSON, Memb. Inst. C.E. | DAVID MILNE HOME, LL.D.       |
| The Right Rev. Bishop COTTEBILL.  | Sir C. WYVILLE THOMSON, LL.D. |
| Principal Sir ALEX. GRANT, Bart.  | Prof. DOUGLAS MACLAGAN, M.D.  |

*General Secretary*—Dr JOHN HUTTON BALFOUR.

*Secretaries to Ordinary Meetings.*

Professor TAIT.  
Professor TURNER.

*Treasurer*—DAVID SMITH, Esq.

*Curator of Library and Museum*—ALEXANDER BUCHAN, M.A.

*Councillors.*

|                            |                                 |
|----------------------------|---------------------------------|
| Professor FLEEMING JENKIN. | Rev. W. LINDSAY ALEXANDER, D.D. |
| Rev. R. BOOG WATSON.       | Dr THOMAS A. G. BALFOUR.        |
| Dr HUGH CLEGHORN.          | J. Y. BUCHANAN, M.A.            |
| Professor T. R. FRASER.    | Rev. THOMAS BROWN.              |
| Professor RUTHERFORD.      | ROBERT GRAY.                    |
| Dr R. M. FERGUSON.         | Dr WILLIAM ROBERTSON.           |
