Editor's Comment		
------------------	--	--

This issue of the International Journal of Legal Information (*IJLI*) brings something entirely new. It is an entire issue devoted to one jurisdiction, Cuba. Not only is the *IJLI* focusing on just a single jurisdiction, but we are bringing you something truly unique. It's a detailed guide to Cuban law and legal research. To my knowledge, nothing like this has been published recently, and certainly nothing like this has been published in the *IJLI* or the other principal legal information journals. It is exciting to publish this truly groundbreaking piece in the *IJLI*.

The Cuba guide is the result of an extraordinary effort by 12 law librarian authors, under the overall editorial direction of **Julienne Grant** of the Loyola University Chicago Law Library, **Marisol Florén-Romero** of the Florida International University Law Library, and **Sergio Stone**, of the Stanford University Law Library. The other nine contributing authors are:

Cate Kellett
Eduardo Colón
Irene Kraft
Jonathan Pratter
Jootaek Lee
Lyonette Louis-Jacques
Yasmin Morais
Steven Alexandre da Costa
Teresa Miguel-Stearns

The 12 authors had largely completed their work when they contacted me several months ago to see if there might be a home for the Guide in the *IJLI*. Of course, I was *thrilled* to be able to bring this totally unique and incredibly useful piece to the readers of the *IJLI*. And I couldn't be more pleased with how well it has turned out.

The guide has an introduction and is further divided into 12 sections: Legal System and Government Structure, The Socialist Constitution, Executive Powers, Legislation and Codes, The Judiciary, Foreign Investment Law, Cuba in the International Arena, The Legal Profession, Secondary Sources, Online Resources, Non-Legal Sources, and Cuban Legal Materials in U.S. and Canadian Libraries. Most sections contain bibliographies. And as you can see from the main subject headings, the Guide is quite comprehensive.

As you all know, Cuba is in the news a great deal these days, particularly its evolving relationship with the United States and other countries. This unique guide will become an excellent resource for those performing research on the law and government of the island nation of Cuba.

In addition to this landmark research guide on Cuba, this issue of the *IJLI* has the usual excellent book reviews, edited by **Thomas Mills**, and the indispensable International Calendar, edited by **Amy Flick**.

Please do yourself a favor and read through the Cuba guide. I am sure you will find interesting and useful information about that country, its government and its laws that you did not know before. Happy reading!
