Aims and Scope: The *International Journal of Technology Assessment in Health Care* has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, public health, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal is the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal serves as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

Publishing, Advertising, and Subscription Offices: Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473, U.S.A. (for U.S.A., Canada, and Mexico); or Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK (for U.K. and elsewhere).

2014 Subscription Information: *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623)

is published quarterly in January, April, July, and October by Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473; Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK. Annual institutional subscription rates for Volume 30 (2014): Institutions online only US \$560.00, and online only UK and elsewhere £321.00. Individuals online only US \$281.00, and online only UK and elsewhere £158.00. Single part: US \$102.66 in the U.S.A., Canada and Mexico; UK £58.85 and elsewhere. Online only for all institutions. Print editions ceasing for 2014. Back volume prices are available upon request. *International Journal of Technology Assessment in Health Care* and other Cambridge journals can be found at <http://journals.cambridge.org>

CONTENTS

Theme: Adaptive Approaches to Licensing

Editorial

- 239** Is this the real life? Is this just fantasy?
David Grainger
- 241** Adaptive approaches to licensing, Health Technology Assessment, and introduction of drugs and devices
Don Husereau, Chris Henshall and Jamil Jivraj
- 250** Transcatheter Aortic Valve Implantation and adaptive/progressive coverage
Marianne Klemp, Sophie Cros and Mitchell Sugarman
- 251** HTAi Policy Forum: Keeping HTA on track
Carole Longson
- 253** Development of coverage with evidence development for medical technologies in Switzerland from 1996 to 2012
Urs Brügger, Andreas Ruckstuhl, Bruno Horisberger and Alois Gratwohl

Editorial

- 260** Less noise, more hacking: How to deploy principles from MIT's hacking medicine to accelerate health care
Jacqueline W. DePasse, Ryan Carroll, Andrea Ippolito, Allison Yost, Data Santorino, Zen Chu and Kristian R. Olson

Assessments

- 265** Does Health Technology Assessment affect policy-making and clinical practice in Sweden?
Måns Rosén and Sophie Werkö
- 273** Techniques for diagnosing osteoporosis: A systematic review of cost-effectiveness studies
Davide Minniti, Ottavio Davini, Maria Rosaria Gualano and Maria Michela Gianino
- 282** Rituximab and tocilizumab for the treatment of rheumatoid arthritis
Nicolás González-Vacarezza, Alicia Alemán, Graciela González and Ana Pérez
- 289** IT strategic planning in hospitals: From theory to practice
Mirou Jaana, Mari Teitelbaum and Tyson Roffey
- 298** ICT and the future of health care: Aspects of doctor-patient communication
Daniela Haluza and David Jungwirth

Methods

- 306** Patient perspective in health technology assessment of pharmaceuticals in Finland
Jenni Kleme, Marika Pohjanoksa-Mäntylä, Marja Airaksinen, Hannes Enlund, Helena Kastarinen, Piia Peura and Katri Hämeen-Anttila
- 312** Validation of surrogate endpoints in advanced solid tumors: Systematic review of statistical methods, results, and implications for policy makers
Oriana Ciani, Sarah Davis, Paul Tappenden, Ruth Garside, Ken Stein, Anna Cantrell, Everardo D. Saad, Marc Buyse and Rod S. Taylor

- 325** Exploring two cost-adjustment methods for selection bias in a small sample: Using a fetal cardiology dataset
Hema Mistry
- 333** Identification and review of cost-effectiveness model parameters: A qualitative study
Eva Kaltenthaler, Munira Essat, Paul Tappenden and Suzy Paisley

Erratum

- 341** Economic evaluation of intravenous iodinated contrast media in Italy – Erratum
