

# INSTITUTE OF TROPICAL MEDICINE, ANTWERP, BELGIUM

---

## FIRST ANNOUNCEMENT

The Institute of Tropical Medicine will hold its Annual Colloquium on Thursday and Friday, the 11th and 12th December 1986 on:

### **HELMINTH ZONOSSES**

**with particular reference to the tropics**

The veterinary department is in charge of the organization of this colloquium. It is our intention to devote several sessions to the most prevalent zoonoses in the tropics, with special emphasis on cysticercosis, hydatidosis and larva migrans. Both medical and veterinary aspects will be considered.

The official language for the meeting is English but presentations in other languages will be accepted.

Authors who wish to present a paper are invited to submit a title as soon as possible. More detailed information will be sent to those who intend to participate. All the papers accepted by the organizing committee will be published in the proceedings of the colloquium. The invited papers and abstracts of accepted papers will appear in the *Annals of the Belgian Society of Tropical Medicine*.

We kindly invite hereby all those who want to submit a paper or who would like to attend the colloquium to register their name and address with the organizing committee.

*Responsible for the Colloquium*

S. GEERTS
