

Acknowledgments

I would like to thank the Institute for Humane Studies for awarding me a Sabbatical Research Fellowship (grant no. IHS008852), hosting a manuscript workshop, and awarding publication expenses (grant no. IHS018256). I would like to thank those who participated in the manuscript workshop: Richard Monette, N. Bruce Duthu, Ezra Rosser, Melissa Tatum, Terry Anderson, Carrie Stallings, and Dominic Parker. I would like to thank Jeremy Rabkin for his thoughtful comments. And a special thanks to Alison Geisler, my former research assistant, for her invaluable assistance in completing the manuscript.
