

WEED SCIENCE

WEED SCIENCE

Published six times a year by the Weed Science Society of America

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Muthukumar V Bagavathiannan, Texas A&M, College Station, TX 77843 (2015)

Ian Burke, Washington State University, Pullman, WA 99164 (2019)

Carlene Chase, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)

Bhagirath Singh Chauhan, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)

Sharon Clay, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)

Franck E. Dayan, USDA-ARS-NPURL, National Center for Natural Products Research, University, MS 38677 (2003)

Timothy Grey, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)

Erin Haramoto, University of Kentucky, Lexington, KY 40506 (2020)

Prashant Jha, Iowa State University, Ames, IA 50011 (2017)

Mithila Jugulam, Kansas State University, Manhattan, KS 66506 (2019)

Vipan Kumar, Kansas State University, Hays, KS 67601 (2020)

Ramon Leon, Department of Crop and Soil Sciences, North Carolina State University, Raleigh, NC 27695 (2016)

Sara Martin, Ag Canada, Ottawa, Canada (2018)

Vijay Nandula, Mississippi State University, Delta Research & Extension Center, Stoneville, MS 38776 (2008)

Chris Preston, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)

Dean Riechers, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)

Hilary Sandler, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)

Debalin Sarangi, University of Wyoming, Powell, WY 82435 (2020)

Steven Seefeldt, USDA-ARS, University of Alaska, Fairbanks, AK 99775 (2011)

Patrick J. Tranel, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)

Te-Ming Paul Tseng, Mississippi State University, Mississippi State, MS 39762 (2019)

Martin M. Williams II, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)

Chenxi Wu, Crop Science Division, Plant Biotechnology – Research & Development, Bayer U.S., Chesterfield, MO 63017 (2019)

Tracy Candelaria, *Managing Editor*

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Science (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Science publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$430.00; UK £299.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

WEED SCIENCE

Journal of the Weed Science Society of America

Volume 68 Number 4 July 2020

REVIEW

- Integrating cover crops for weed management in the semiarid U.S. Great Plains: opportunities and challenges. *Vipan Kumar, Augustine Obour, Prashant Jha, Rui Liu, Misha R. Manuchehri, J. Anita Dille, John Holman and Phillip W. Stahlman* 311

RESEARCH ARTICLE

- Glufosinate enhances the activity of protoporphyrinogen oxidase inhibitors. *Hudson K Takano, Roland Beffa, Christopher Preston, Philip Westra and Franck E Dayan* 324
- Dicamba translocation in soybean and accumulation in seed. *Maria Leticia M. Zaccaro, Jason K. Norsworthy and Chad B. Brabham* 333
- Incidence of multiple herbicide resistance in annual bluegrass (*Poa annua*) across southeastern Australia. *Rajesh Barua, Peter Boutsalis, Jenna Malone, Gurjeet Gill and Christopher Preston* 340
- Limited induction of ethylene and cyanide synthesis are observed in quinclorac-resistant barnyardgrass (*Echinochloa crus-galli*) in Uruguay. *Manuel Diez Vignola, Martha Sainz, Néstor E. Saldain, Claudia Marchesi, Victoria Bonnacarrère and Pedro Díaz Gadea* 348
- Association between metabolic resistances to atrazine and mesotrione in a multiple-resistant waterhemp (*Amaranthus tuberculatus*) population. *Kip E Jacobs, Carrie J. Butts-Wilmsmeyer, Rong Ma, Sarah R. O'Brien and Dean E. Riechers* 358
- Varying responses of field-selected herbicide-resistant rigid ryegrass (*Lolium rigidum*) populations to combinations of phorate with PPI herbicides. *David J. Brunton, Peter Boutsalis, Gurjeet Gill and Christopher Preston* 367
- Inhibition of wheat growth planted after glyphosate application to weeds. *Se Ji Jang, Carol Mallory-Smith and Yong In Kuk* 373
- Carbohydrate, phytohormone, and associated transcriptome changes during storage root formation in alligatorweed (*Alternanthera philoxeroides*). *Junliang Yin, Jie Tian, Gang Li, Yongxing Zhu, Xiaokang Zhou, Yang He, Peiyao Nie, Yanmeng Su, Qiwen Zhong and Zhongyi Chen* 382
- Cross-species transferability of *Solanum* spp. DNA markers and their application in assessing genetic variation in silverleaf nightshade (*Solanum elaeagnifolium*) populations from Texas, USA. *Joshua James Singleton, Puneet Kaur Mangat, Junghyun Shim, Cody Vavra, Cade Coldren and Rosalyn B. Angeles-Shim* 396
- Yellow nutsedge (*Cyperus esculentus*) interference in simulated sweetpotato plant beds. *Stephen L. Meyers, T. Casey Barickman, Jeffrey L. Main and Thomas Horgan* 405
- Germination ecology of hairy fleabane (*Conyza bonariensis*) and its implications for weed management. *Deepak Loura, Sahil, Singarayer Florentine and Bhagirath Singh Chauhan* 411
- Influence of establishment timing on growth and fecundity of two itchgrass (*Rottboellia cochinchinensis*) biotypes grown in Louisiana. *Douglas J. Spaunhorst* 418
- Ameliorating soil acidity-reduced growth of rigid ryegrass (*Lolium rigidum*) in wheat. *Catherine P. D. Borger, Gaus Azam, Chris Gazey, Andrew van Burgel and Craig A. Scanlan* 426
