

ENVIRONMENTS AND PHYSIOLOGY OF FOSSIL ORGANISMS

TRANSACTIONS  
OF  
THE ROYAL SOCIETY  
OF  
EDINBURGH

EARTH SCIENCES

Volume 80 Parts 3 and 4

PUBLISHED BY THE ROYAL SOCIETY OF EDINBURGH

22 GEORGE STREET · EDINBURGH · EH2 2PQ

1989

## Editorial Board

E. N. K. CLARKSON  
University of Edinburgh  
(Chairman)

S. CRAMPIN  
British Geological Survey

C. H. DONALDSON  
University of St Andrews

A. L. HARRIS  
University of Liverpool

B. HARTE  
University of Edinburgh  
(Executive Editor)

J. MCMANUS  
University of St Andrews

C. D. WATERSTON  
General Secretary  
Royal Society of Edinburgh

R. MCQUILLIN  
BP Exploration  
(Executive Editor)

V. B. PROUDFOOT  
University of St Andrews

D. M. RAMSAY  
University of Dundee

W. RITCHIE  
University of Aberdeen  
(Executive Editor)

E. K. WALTON  
University of St Andrews

W. DUNCAN  
Executive Secretary  
Royal Society of Edinburgh

## Consulting Editors

SHOHEI BANNO  
Kyoto University

W. L. BROWN  
Centre de Recherches Pétrographiques et Géochimiques,  
Vandoeuvre-les-Nancy

B. W. CHAPPELL  
Australian National University, Canberra

J. M. COLEMAN  
Louisiana State University, Baton Rouge

J. F. DEWEY  
University of Oxford

D. G. GEE  
Lunds Universitet

R. W. HUTCHINSON  
Colorado School of Mines

E. JÄGER  
Universität Bern

J. KONTA  
Charles University, Prague

R. MACDONALD  
University of Lancaster

D. B. MCINTYRE  
Pomona College, Claremont

K. J. MÜLLER  
Rhein. Friedrich-Wilhelms-Universität Bonn

D. F. STRONG  
Memorial University, St Johns

V. C. THAKUR  
Wadia Institute of Himalayan Geology

S. UYEDA  
University of Tokyo

O. VAN BREEMEN  
Geological Survey of Canada, Ottawa

R. WOODALL  
Western Mining Co., Adelaide

**on**

**Wednesday, Thursday and Friday, 28–30 September 1988**

## CONTENTS

Preface. By E. N. K. CLARKSON, G. B. CURRY and W. D. I. ROLFE . . . . .	v
<i>Evolution of the Earth's environment through time</i>	
Geophysiology. By JAMES E. LOVELOCK . . . . .	169
The isotopic geochemistry of ocean waters through time. By A. E. FALLICK and P. J. HAMILTON . . . . .	177
Ocean temperatures and isotopic compositions through time. By J. D. HUDSON and T. F. ANDERSON . . . . .	183
Biominalisation in the context of geological time. By K. SIMKISS . . . . .	193
Comparative physiology as a tool for investigating the evolutionary routes of animals on to land. By COLIN LITTLE . . . . .	201
<i>Physiological adaptations in some recent and fossil organisms</i>	
The evolution of ecological tolerance in prokaryotes. By ANDREW H. KNOLL and JOHN BAULD . . . . .	209
Physiological constraints upon marine organisms. By J. D. ROBERTSON . . . . .	225
What, if anything, is a brackish-water fauna? By R. S. K. BARNES . . . . .	235
Physiological adaptations of the living agnathans. By M. W. HARDISTY, I. C. POTTER and R. W. HILLIARD . . . . .	241
Physiological constraints on living and fossil brachiopods. By GORDON B. CURRY, A. D. ANSELL, M. JAMES and L. PECK . . . . .	255
Physiological adaptations to extreme pressures: the implications for palaeoecology. By A. G. MACDONALD . . . . .	263
The persistence of Burgess Shale-type faunas: implications for the evolution of deeper-water faunas. By S. CONWAY MORRIS . . . . .	271
Physiology of Crustacea from difficult environments. By A. P. M. LOCKWOOD and S. R. L. BOLT . . . . .	285
Environmental controls on the taphonomy and distribution of Carboniferous malacostracan crustaceans. By D. E. G. BRIGGS and E. N. K. CLARKSON . . . . .	293
Palaeophysiology of terrestrialisation in the Chelicerata. By PAUL A. SELDEN and ANDREW J. JERAM . . . . .	303
Mechanics and physiology of flight in fossil vertebrates. By JEREMY M. V. RAYNER . . . . .	311
Physiological characteristics of land plants in relation to environment through time. By ROBERT A. SPICER . . . . .	321

(Issued 22 September 1989)
