# Return of the a priori

Edited by  
**Philip Hanson and Bruce Hunter**

This volume contains ten new essays on a priori knowledge by authors from Canada, the United States, Australia, and Europe, with an introduction by the editors. Topics addressed include the nature, explanation, and indispensability of a priori knowledge, its connection with analytic truth, its place in mathematics, in logic, and in empirical theory, and the contribution of Kant and Quine to these topics. The focus is on twentieth century contributions to these issues, but most essays also address earlier discussions at some length, and the essays that focus on Kant also relate his views to more recent discussions.

# ANALYSIS

*Edited by*  
**PETER SMITH**

*Published quarterly for*  
**The ANALYSIS Trust**  
(reg. charity no. 325126)

ANALYSIS was founded in 1933 to provide a forum for the rapid publication of short discussions of topics in philosophy. It quickly established itself as one of the characteristic journals of philosophy within the analytical tradition, with a distinctive style that has been maintained to the present day. Articles range over topics in all areas of philosophy that lend themselves to the presentation of cogent but brief arguments for substantitive conclusions, and often give rise to discussions which continue over several interchanges.
