Public Health Nutrition

Volume 18, 2015 ISSN: 1368-9800

Eighteen issues per year

Aims and Scope

Public Health Nutrition provides an international forum for the publication and dissemination of research and scholarship in the form of peer-reviewed original papers and reviews, and for discussion in the form of editorials, commentaries, and correspondence, with a specific focus on nutrition-related public health.

The scope of *Public Health Nutrition* includes food systems and supplies, patterns of diet, foods and drinks, nutrients, body composition, physical activity, and associated factors, and their effects on disease, health and well-being, and the whole living and physical world. We welcome papers that:

- Address nutritional status **assessment, monitoring, and surveillance**
- Identify and analyse social, cultural, biological, environmental, economic and political **determinants of nutrition-related public health**
- Build intelligence about the development and evaluation of environmental and settings-based **interventions** focused on the availability of foods including interventions in the out of home eating environment.

- Describe, discuss, debate and influence **food and nutrition policy**
- Focus on improving food and nutrition-related public health, particularly in **populations that are most vulnerable and at risk**.
- Discuss and **build capacity** for effective public health nutrition action, including workforce development and educational issues
- Develop and test **innovative and emerging models, methods and approaches** to public health nutrition practice and research.

We prefer papers that are innovative and contribute new knowledge to the literature. Papers should be succinct (ie, usually well under 5,000 words not including the abstract, references, tables, figures and acknowledgements). Short communications are welcome. We publish research, scholarship, and discussions that take a population and preventive approach. In addition to original contributions, ideas and suggestions for topics for debate are also welcome. We publish special issues.

Public Health Nutrition is available on the Internet at: journals.cambridge.org/phn

International Editorial Board

Editor-in-Chief

Research Professor Marilyn Tseng
California Polytechnic State University
San Luis Obispo, USA
Email: phn@nutsoc.org.uk

Deputy Editors

Dr Allison Hodge
University of Melbourne, Australia

Dr Carl Lachat
Gent University, Belgium

Dr Eduardo Villamor, University of Michigan
School of Public Health, USA

Supplement and Special Issues Editor

Dr Irja Haapala
University of Eastern Finland, Finland

Statistics Editor

Mrs Zulfa Abrahams *Human Sciences Research Council, South Africa*

Dr Flávia Barbosa *State University of Rio de Janeiro, Brazil*

Dr Vassiliki Bountziouka *University College London, UK*

Mr Fabio S. Gomes *National Cancer Institute, Brazil*

Dr Vassilis Vasdekis *Athens University of Economics and Business, Greece*

Systematic Reviews and Meta-Analyses Editor

Dominique Roberfroid, *Institute of Tropical Medicine, Belgium*

Associate Editors

Dr Leila Azadbakht, *Isfahan University of Medical Sciences, Iran*

Dr Kaleab Baye, *Addis Ababa University, Ethiopia*

Dr Shawna Berenbaum, *University of Saskatchewan, Canada*

Dr Maxine Bonham, *Monash University, Australia*
