# Expert Test Services for Diagnosis of Invasive Fungal Infection

## Beacon Diagnostics™ Laboratory

Beacon Diagnostics Laboratory is a fully CLIA-certified reference laboratory specializing in (1,3)- $\beta$ -D-glucan analysis as an aid to diagnosing Invasive Fungal Infections (IFI).

## The Fungitell™ Assay

The Fungitell assay detects (1,3)- $\beta$ -D-Glucan, a fungal cell wall component that is shed into the tissues and bloodstream of patients suffering from invasive fungal infection.<sup>1,2</sup> Most medically important fungal pathogens contain (1,3)- $\beta$ -D-Glucan and are thus detectable using the Fungitell assay.\* Beacon Diagnostics Laboratory performs (1,3)- $\beta$ -D-Glucan testing using the Fungitell assay.

Monitoring serum glucan for evidence of elevated and rising levels provides a convenient marker for IFI. Levels greater than or equal to 80 pg/mL, in at risk patients, are considered positive. Because a fungal infection is a dynamic process, repeat testing (typically 2-3 times per week) improves sensitivity.

\*Fungi that do not synthesize (1,3)- $\beta$ -D-Glucan, such as Zygomycetes, will not generate positive results with this assay.

As your  
knowledge grows,  
your influence  
multiplies.

Earn the degree you need to help protect people from the spread of infectious disease. Walden University offers rigorous academic programs taught by public health experts from around the world, and our online format lets you share and learn best practices with a tight-knit community of professors and professionals just like you. The need is great for highly skilled epidemiologists. To learn about enrolling, call or go online.

THEY'RE EVEN MORE  
OUTSTANDING AS A TEAM.

## INFECTION CONTROL SPECIALIST

Our Infection and Control Team is growing and, if you are someone who wants to be a part of an exciting, fast-paced team, there is no better time to contact us!

The ideal candidate must possess MSN, PA RN licensure, and at least 3 years acute care experience. Master's degree and CIC certification preferred.

If you are interested in showcasing your skills and experience in a leading-edge medical facility alongside an experienced staff, then we have an opportunity for you. We offer competitive salaries, comprehensive benefit packages, including tuition reimbursement, fully paid pension plan, retirement savings program, generous PTO and relocation expenses.

**For your convenience, qualified candidates may apply using one of the following methods: send resume to WellSpan Health Human Resources Department, PO Box 15198, York, PA 17405-7198, apply electronically through our user-friendly Web site at [www.wellspan.org](http://www.wellspan.org), or e-mail me personally at [mmitzel@wellspan.org](mailto:mmitzel@wellspan.org) or call 717-851-2249. EOE, M/F.**

## Practical Handbook for Healthcare Epidemiologists, Second Edition

Ebbing Lautenbach MD, MPH, MSCE,  
University of Pennsylvania, Philadelphia, PA  
and Keith Woeltje MD, PhD,  
Washington University School of Medicine,  
St. Louis, MO

400 pp., Hard Cover, 2004,  
ISBN 1-55642-677-1  
Order#16771, **\$94.95**

If you work in today's healthcare epidemiology programs **you will need** the latest edition of *Practical Handbook for Healthcare Epidemiologists*. Situations that are encountered daily can be challenging, and now the answers needed are available in one solid resource.

Extensively updated and revised, this **best selling** handbook is concise

and user-friendly, and will provide practical information regarding many aspects of establishing and managing a healthcare epidemiology program.

The Society for Healthcare Epidemiology of America (SHEA) has recruited over 50 recognized leaders in the field to share their expertise. They discuss overarching goals, as well as successful strategies for handling specific situations and problems. There is also extensive information on infection control in the outpatient setting and measures to take after exposure to infectious agents. *This is the most complete hands-on source about healthcare epidemiology and infection prevention and control.*
