The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

A. LOGAN TURNER AND J. S. FRASER

ASSISTED BY

DOUGLAS GUTHRIE AND IRWIN MOORE

1. Original Articles are accepted on the condition that they have not been published elsewhere.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter should be added.

4. The order for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.

5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

6. Editorial Communications should be addressed to "EDITORS, *Journal of Laryngology*, c/o Messrs OLIVER AND BOYD, Tweeddale Court, Edinburgh."

7. The Annual Subscription is Forty Shillings, post free, and is payable in advance.

8. Single copies of back numbers, both of the present and the previous series, are on sale at Four Shillings each.

9. An Annual Subscription can be commenced with any number of the Journal, and the preceding numbers of the current year can be purchased at Four Shillings each.

UNITED STATES OF AMERICA

Orders for this Journal, for single parts or yearly subscriptions, can be sent either through a local bookseller, or to Messrs G. E. STECHERT & Co., 31-33 East 10th Street, New York.

EAR, NOSE and THROAT EXAMINATIONS

TRANS-ILLUMINATION and LIGHT CAUTERY

No. 53. Complete portable outfit . . . £8 5s. 0d.

Other outfits from . . . £8 12s. 6d.

The "Davon" Batteries supplied with above are the only ones to be depended upon.

Many clients have had them in use for 1 to 3 years.

F. DAVIDSON & CO.

29 Great Portland Street, London, W.1

CHEVALIER JACKSON'S INSTRUMENTS FOR ŒSOPHAGOSCOPY, LARYNGOSCOPY, AND BRONCHOSCOPY

New Models as made for Walter G. Howarth, F.R.C.S.

Each Instrument is made in accordance with the details of Chevalier Jackson's most recent models, and each is supplied with a *spare light carrier*, i.e., 2 light carriers and 2 lamps. All the models have been redesigned with a view to rendering them more easily cleansed; all the crevices and corners for the dirt have been taken away.

To ensure better visibility the tips of the forceps are *black*.

The Howarth-Jackson's Instruments are **less expensive than other American or English models**, and a further economy has been effected by rendering the instrument tips interchangeable, thus reducing the number of forceps handles and tips required.

The lamps are 2.5 volt and more durable than the usual models.

Telegrams—"DOWN, LONDON."
Telephone—HOP 4400 (4 lines).

HOSPITAL FOR DISEASES OF THE THROAT

GOLDEN SQUARE, LONDON, W. 1

HONORARY MEDICAL STAFF

Surgeons

Mr T. JEFFERSON FAULDER
Mr GEORGE W. BADGEROW
Mr LIONEL COLLEDGE

Mr G. A. DAWSON
Mr GILBERT CHUBB
Mr THEODORE JUST

Assistant Surgeons

Mr ORMEROD
Mr BEDFORD RUSSEL

Mr DINGLEY
Mr SANDIFORD

The Hospital, which has for some considerable time been undergoing very extensive reconstruction and extension, has nearly 80 beds for In-patients and an annual Out-patient attendance of over 60,000.

CLINICAL INSTRUCTION

Clinical Instruction in the Diagnosis and Treatment of Diseases of the Ear, Nose and Throat is daily given in the Out-patient Department from 2 to 5 p.m. On Tuesdays and Fridays from 6.30 to 9 p.m. also. Major operations are performed daily, except Mondays and Saturdays, in the In-patient Operating Theatres. Minor operations are performed in the Out-patient Department by the Assistant Surgeons on four mornings a week.

Practitioners and Medical Students are admitted to the practice of the hospital and Clinical Assistants, whose duty it is to assist the staff, are appointed from time to time among them. For further information apply to the Dean, GILBERT CHUBB.

ORARGOL

(A.F.D.)

An electrically prepared suspension
of colloidal silver and gold for

RHINO - LARYNGOLOGY OPHTHALMOLOGY

AND
GENERAL ANTISEPSIS.

Indicated in the same diseases as colloidal silver,
Orargol has a superior action because of the addition
of the powerfully anti-infectious colloidal gold.

Cassell & Company Ltd.

Third Edition

Diseases of THE NOSE & THROAT

Comprising Affections of the Trachea and Œsophagus

By SIR STCLAIR THOMSON,
M.D., F.R.C.P. Lond., F.R.C.S. Eng.

THIS standard Textbook for Students and Specialists has been thoroughly revised and considerably extended.

Out-of-date pictures have been deleted, while many new figures and twelve new radiographic and other Plates have been added.

Extracts from Reviews of the Third Edition

“It was stated dogmatically in the review of the first edition that this is the best book of its kind in the English language, and there is every reason to ratify that opinion now, fifteen years later.”—*British Medical Journal*.

“Sir St Clair Thomson’s *magnum opus* has been well described as ‘the laryngologist’s Bible.’ . . . The work as a whole reflects credit on British Laryngology and on its eminent author.”—*The Practitioner*.

“The new edition retains for the book its premier position as the standard work in the English language on the diseases of the nose and throat.”—*Clinical Journal*.

“Un livre dont le succès a été mondial . . . Ce livre est, actuellement, le meilleur traité didactique paru sur la Rhino-Laryngologie.”—*Annales des Maladies de l’Oreille*.

“The book has a position quite beyond challenge.”—*Medical Press and Circular*.

Medium 8vo. 960 pages. With 12 Colour and 12 Black-and-White Plates and 379 Figures in the Text. 45s. net.
