

INFECTION CONTROL & HOSPITAL EPIDEMIOLOGY

VOLUME 34, NUMBER 12

DECEMBER 2013

NATIONAL SURVEILLANCE DEFINITIONS: AN UPDATE

- 1239 Developing a New, National Approach to Surveillance for Ventilator-Associated Events: Executive Summary** • Shelley S. Magill, MD, PhD; Michael Klompas, MD, MPH; Robert Balk, MD; Suzanne M. Burns, RN, ACNP, MSN, RRT; Clifford S. Deutschman, MS, MD; Daniel Diekema, MD; Scott Fridkin, MD; Linda Greene, RN, MPS; Alice Guh, MD, MPH; David Gutterman, MD; Beth Hammer, RN, MSN, ANP-BC; David Henderson, MD; Dean R. Hess, PhD, RRT; Nicholas S. Hill, MD; Teresa Horan, MPH; Marin Kollef, MD; Mitchell Levy, MD; Edward Septimus, MD; Carole VanAntwerpen, RN, BSN; Don Wright, MD, MPH; Pamela Lipsett, MD, MHPE

ORIGINAL ARTICLES

- 1244 Pediatric Antimicrobial Susceptibility Trends across the United States** • Pranita D. Tamma, MD, MHS; Gwen L. Robinson, MPH; Jeffrey S. Gerber, MD, PhD; Jason G. Newland, MD; Chloe M. DeLisle; Theoklis E. Zaoutis, MD, MSCE; Aaron M. Milstone, MD, MHS
- 1252 Identifying Targets for Antimicrobial Stewardship in Children's Hospitals** • Jeffrey S. Gerber, MD, PhD; Matthew P. Kronman, MD, MSCE; Rachael K. Ross, MPH; Adam L. Hersh, MD, PhD; Jason G. Newland, MD; Talene A. Metjian, PharmD; Theoklis E. Zaoutis, MD, MSCE
- 1259 The Use of Best Practice Alerts with the Development of an Antimicrobial Stewardship Navigator to Promote Antibiotic De-escalation in the Electronic Medical Record** • Lucas Schulz, PharmD, BCPS; Kurt Osterby; Barry Fox, MD
- 1266 Incidence, Classification, and Risk Stratification for *Candida* Central Line-Associated Bloodstream Infections in Pediatric Patients at a Tertiary Care Children's Hospital, 2000–2010** • J. Michael Klatte, MD; Jason G. Newland, MD, MEd; Mary Anne Jackson, MD
- 1272 Management of Neurosurgical Instruments and Patients Exposed to Creutzfeldt-Jakob Disease** • Ermias D. Belay, MD; Jennifer Blase, MPH; Lynne M. Schulster, PhD; Ryan A. Maddox, PhD; Lawrence B. Schonberger, MD
- 1281 Incidence and Pathogen Distribution of Healthcare-Associated Infections in Pilot Hospitals in Egypt** • Isaac See, MD; Fernanda C. Lessa, MD; Omar Abo ElAta, MD, MPH; Soad Hafez, PhD, MS, MBCh; Karim Samy, RPh, BPS; Amani El-Kholy, MD, PhD; Mervat Gaber El Anani, MD, PhD; Ghada Ismail, MD, PhD; Amr Kandeel, MD, MPH, PhD; Ramy Galal, MD, MPH; Katherine Ellingson, PhD; Maha Talaat, MD, MPH, DrPH
- 1289 Infection Control Knowledge, Attitudes, and Practices among Healthcare Workers in Addis Ababa, Ethiopia** • Admasu Tenna, MD; Edward A. Stenehjem, MD, MSc; Lindsay Margoles, MD; Ermias Kacha, MD; Henry M. Blumberg, MD; Russell R. Kempker, MD, MSc
- 1297 Innovative Solution to Sharp Waste Management in a Tertiary Care Hospital in Karachi, Pakistan** • Seher Qaiser, MBBS; Ambreen Arif, MBBS; Saeed Quaid, MPH; Tasnim Ahsan, FRCP; Kashif Riaz, BDS; Saad Niaz, FRCP; Huma Qureshi, FRCP; Waquaruddin Ahmed, MD; Syed Ejaz Alam, MSc

CONTENTS CONTINUED INSIDE

Good evening. Good morning. *Good outcomes!*

The night before, morning of early skin prep that's easy & effective
Sage® 2% CHG Cloths make it easy for patients to prep the night before surgery, at home, which may improve compliance to PAT recommendations. Repeat application in Preop Holding the morning of surgery, and you have an SSI prevention strategy that's supported by published outcomes and professional guidelines^{1,2,3,4,5}.

Free Early Prep Tool Kit!
 Enhance your SSI prevention efforts. Get started today!
www.sageproducts.com/chgtoolkit

Using ordinary liquid CHG soap for early prepping?

Time to reconsider.

Rinse-off soaps may be sending your best prevention intentions down the drain. Sage 2% CHG Cloths are rinse-free. Each cloth delivers 500 mg of CHG to skin—and it stays on—for maximum persistence.⁶

Infection Control and Hospital Epidemiology (ISSN 0899-823X) is published monthly by the University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637-2954 (<http://www.journals.uchicago.edu/ICHE/>). The editorial office is in Chicago, Illinois.

Editorial Office

Communications should be addressed to the Editor, *Infection Control and Hospital Epidemiology*, 1427 E. 60th St., Chicago, IL 60637-2954 (e-mail: iche@press.uchicago.edu; telephone: 773-702-2538, fax: 773-753-4247). Contributors should consult the Information for Authors, which is available at the journal's Web site.

Advertising

Please direct advertising inquiries to Paul Tucker, Breuning Nagle Associates, 59 Grove Street, New Canaan, CT 06840 (e-mail: paul@bna1.com; telephone: 847-669-1096, fax: 203-801-0011). Publication of an advertisement in *Infection Control and Hospital Epidemiology* does not imply endorsement of its claims by the Society for Healthcare Epidemiology of America, by the Editor, or by the University of Chicago. Correspondence regarding advertising should be addressed to the advertising office in Chicago.

Permissions

Articles may be copied or otherwise reused without permission only to the extent permitted by Sections 107 and 108 of the US Copyright Law. Permission to copy articles for personal, internal, classroom, or library use may be obtained from the Copyright Clearance Center (<http://www.copyright.com>). For all other uses, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale, please contact the Permissions Coordinator, Journals Division, University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637 (e-mail: journalpermissions@press.uchicago.edu; fax:

773-834-3489). Articles in the public domain may be used without permission, but it is customary to contact the author.

Subscriptions

The individual subscription rate for 2014 is \$197. Lower rates for fellows, residents, and students are available at <http://www.journals.uchicago.edu/ICHE>. Individuals have the option to order directly from the University of Chicago Press. Institutional print + electronic and e-only subscriptions are available through JSTOR's Current Scholarship Program and include unlimited online access; rates are tiered according to an institution's type and research output: \$460 to \$1,150 (print + electronic), \$383 to \$958 (e-only). Institutional print-only is \$489. Additional taxes and/or postage for non-U.S. subscriptions may apply. Subscription agent for Japan: Kinokuniya Company, Ltd. Free or deeply discounted access is available in most developing nations through the Chicago Emerging Nations Initiative (<http://www.journals.uchicago.edu/ceni/>).

Please direct subscription inquiries, requests for back issues, and address changes to Journals Division, University of Chicago Press, P.O. Box 37005, Chicago, IL 60637 (e-mail: subscriptions@press.uchicago.edu; telephone: 773-753-3347 or toll-free in the United States and Canada 877-705-1878; fax: 773-753-0811 or toll-free 877-705-1879).

Postmaster: Send address changes to *Infection Control and Hospital Epidemiology*, University of Chicago Press, P.O. Box 37005, Chicago, IL 60637-2954.

Periodicals postage paid at Chicago, Illinois, and at an additional mailing office.

About SHEA

The Society for Healthcare Epidemiology of America (SHEA) was founded in 1980 to advance the science of healthcare epidemiology and infection prevention. SHEA works to maintain the utmost quality of patient care and healthcare worker safety in all healthcare settings, applying epidemiologic principles and prevention strategies to a wide range of quality-of-care issues. SHEA is strengthened by its active membership in all branches of medicine, public health, and healthcare epidemiology. The Society's expertise is sought by healthcare regulatory and accrediting agencies, and its scientific voice is influential in guiding decision-making bodies towards rational, effective, cost-conscious policies.

Mission

SHEA's mission is to prevent and control healthcare-associated infections and advance the field of healthcare epidemiology.

Core Values

SHEA as an organization:

- Advances the science of healthcare epidemiology through research and education
- Translates knowledge into effective policy and practice
- Mentors, trains and promotes professional development in healthcare epidemiology
- Collaborates and shares expertise with other organizations
- Adheres to high ethical standards and promotes honesty and ethical principles in the practice of epidemiology

Areas of Focus

- Epidemiologic research and laboratory investigation
- Applying the best evidence for protecting patients and reporting data
- Risk reduction programs focused on device and procedure management
- Policy development and implementation
- Education and information

Please contact info@shea-online.org with membership inquiries.

Join SHEA at www.shea-online.org

Address infection prevention and quality of patient care with this hands-on guide to epidemiologic principles and prevention strategies.

In recent years, issues of infection prevention and control, patient safety, and quality-of-care have become increasingly prominent in healthcare facilities. *Practical Healthcare Epidemiology* takes a practical, hands-on approach to these issues, addressing all aspects of infection surveillance and prevention in clear, straightforward terms. This fully revised third edition brings together the expertise of more than fifty leaders in healthcare epidemiology who provide clear, sound guidance on infection prevention and control for the full range of patients in all types of healthcare facilities, including those in settings with limited resources. A powerful resource for practitioners in any branch of medicine or public health who are involved in infection prevention and control, whether they are experienced in healthcare epidemiology or new to the field.

"A handy desk reference and an up-to-date primer for trainees and experts alike." — JAMA, The Journal of the American Medical Association

"An essential for anyone in the field." — Thomas R. Talbot, Chief Hospital Epidemiologist, Vanderbilt University Medical Center

"A much-needed response to the currently tough challenges posed to healthcare epidemiologists and infection preventionists ... highly recommended reading for trainees and professionals in infection control—and healthcare epidemiologists in particular."
—Clinical Infectious Diseases
