

Farm Animals in Biomedical and Agricultural Research

Proceedings of the ANZCCART conference held in Wellington, New Zealand 18-19 August 1995

Among the subjects covered

Farm animals in biomedical and agricultural research (Robert Jolly)

Animal production research advancing animal welfare (Allan Donald)

Farm animal research benefitting humans (Graham 'Mont' Liggins)

Farm animal research benefitting animals (Neville Gregory)

Contradictory standards in the laboratory, small animal clinic, and on the farm (Kevin Stafford)

In vitro fertilisation technologies in animals and humans: an end to the trauma (Ingrid van Wezel)

Agricultural research and the new ethic for animals (Bernard Rollin)

Euthanasia of animals – important issues (Alastair Gunn)

'Pharm' and 'pharmed' animals: welfare issues relevant to research on drug production by and drug use in farm animals (John Carragher)

Pain in farmed animals: awareness, recognition and treatment (Christian Cook)

Expectations of ANZFAS member societies (Glenys Oogjes)

Expectations of government and the community (Peter O'Hara)

What are scientists' expectations? (Mark Fisher)

A funding agency perspective (Bruce Scoggins)

This 98-page book (ISBN 0 646 26379X) is obtainable from:

INSTRUCTIONS FOR AUTHORS

1996

1. **ANIMAL WELFARE** accepts: **Original articles**, ie first reports of the author's own work. **Interpretative articles** based largely on the author's own work and ideas, but incorporating at times animal welfare aspects of previously published material. **Review articles** based largely on other scientists' work. **Short communications** of less than 2000 words. These may be original, interpretative or review papers; factual accounts or field workers' practical experiences in dealing with welfare problems; constructive critiques of other papers, etc. **Technical contributions** from animal keepers, scientists, students, technicians etc, reporting practical methods of improving animal welfare.

Animal Welfare will not include papers based on work which involves unnecessary pain, distress, suffering or lasting harm.

2. **Manuscripts** should be in English, typewritten, double spaced on double-sided A4, with generous margins and pages numbered consecutively. Four copies plus a computer disk of any Apple Macintosh or IBM compatible package should preferably be submitted to the relevant Section Editor or to the Editor-in-Chief. Articles will be scrutinized by a minimum of two referees before being accepted or rejected.
3. **Contents of articles.** The title page should give the full title of the paper, the name(s) and address(es) of the author(s) and a short running head title. The full postal address, telephone and facsimile numbers of the correspondent should be given.
4. **Text** should include an **abstract** of not more than 250 words plus **keywords**; an **introduction** and as appropriate, sections on methods, results, discussion, conclusion, acknowledgements and references. **Animal welfare implications** of the paper should be set out at the end of the text as a subdivision of the discussion or conclusion. **Tables and figures** should all be on separate sheets; and a place marked for them in the text. All lettering on **figures** should be in Helvetica font.
5. **Layout.** The general style of articles should follow those in this issue in respect of headings, paragraphs, use of italics, quotation marks etc.
6. **Numbers** one to nine should be written in words unless they precede units of measurement. Numbers 10 and above should be written as numerals except at the beginning of a sentence. The 24 hour clock should be used for times of day, eg 1400h and if relevant, corrected to standard local time. **Measurements** should comply with the abbreviations in the International System of Units. **Locations** should be given as latitude and longitude. **Per cent** should be used in the main text except when in parentheses or in tables when % should be used.
7. **References** cited in the text should be carefully checked with those in the reference list and vice versa, particularly to ensure that the spelling of names and the dates match. In the text, references should be with the minimum of punctuation, for example:
 - '... carried out by Smith and Jones (1985) ...';
 - '... (Smith & Jones 1985) ...' ie use ampersand when reference is in parentheses;
 - '... (Smith 1985; Jones 1986) ...' ie two or more references should be in chronological order;
 - '... (Smith *et al* 1985) ...' ie use for three or more authors;
 - '... (Smith 1986a,b; 1988) ...' ie by same author in the same and in a subsequent year.

Citations of personal communications and unpublished data should be avoided if possible, but where used should be dated.

References should be listed at the end of the text in alphabetical and chronological order of authors with the minimum of punctuation. Book and journal titles should be quoted in full and italicized or underlined to indicate italics. For example:

Boudreau P L and Tsuchitani C 1973 *Sensory Neurophysiology*. Van Nostrand Reinhold: New York, USA
Eaton P 1987 Hygiene in the animal house. In: Poole T B (ed) *The UFAW Handbook on the Care and Management of Laboratory Animals, 6th edition* pp 144-158. Longman Scientific & Technical: Harlow, UK
Ross C 1988 The intrinsic rate of natural increase and reproductive effort in primates. *Journal of Zoology* 214: 199-219

8. **Reprints.** The author will be supplied with 50 free reprints. Further copies may be ordered at a cost.
9. **Copyright.** The copyright of each paper published becomes the property of UFAW and permission must be sought to reproduce any part or whole of the paper. However, UFAW will not put undue limitations on the author to use the material in other works.
