Series B — Applied Mathematics

Volume 22 Part 1

JULY 1980

D. I. CLARK and M. R. OSBORNE	<i>On the implementation of a subset selection algorithm for the restricted least squares problem</i>	2
P. G. L. LEACH	<i>The complete symmetry group of a forced harmonic oscillator</i>	12
N. PHAN-THIEN	<i>Small strain oscillatory squeeze film flow of simple fluids</i>	22
P. DOLAN, P. CHOUDHURY and J. L. SAFKO	<i>A "constant of the motion" for the geodesic deviation equation</i>	28
E. M. CASLING	<i>A theoretical investigation of an asymmetric planing hull at infinite Froude number</i>	34
V. N. SINGH	<i>Solution of a general homogeneous linear difference equation</i>	53
JAMES M. HILL	<i>A discrete random walk model for diffusion in media with double diffusivity</i>	58
J. J. SHEPHERD	<i>The one-dimensional gas-lubricated slider bearing</i>	75
V. G. HART	<i>Exact solutions of two nonlinear equations and hyper-circle estimates</i>	98
E. O. TUCK	<i>The effect of a submerged barrier on the natural frequencies and radiation damping of a shallow basin connected to open water</i>	104

John Wright and Sons Ltd, Bristol, England

THE JOURNAL

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series, Series A (Pure Mathematics) and Series B (Applied Mathematics). Information about Series A may be found on the inside back cover.

SERIES B APPLIED MATHEMATICS

This series will be published in volumes, comprising four parts, starting with volume XIX Part I in 1975. From 1980, four parts will be published annually. Subscriptions may be arranged through the Business Manager (see inside back cover). The annual cost for 1980 is A\$50.

It is the editorial policy of Series B to accept papers in any field of applied mathematics and related mathematical sciences. Novel applications of mathematics in real situations are welcomed. Authors are encouraged to write an introduction accessible to the whole applied mathematical community. Every effort will be made to publish suitable material with a minimum of delay.

Editor of the Journal

I. H. SLOAN, School of Mathematics, The University of New South Wales, P.O. Box 1, Kensington, N.S.W., Australia, 2033.

Associate Editors

B. D. O. ANDERSON,
Department of Electrical
Engineering,
University of Newcastle,
Newcastle, N.S.W. 2308.

V. T. BUCHWALD,
School of Mathematics,
University of N.S.W.,
P.O. Box 1, Kensington,
N.S.W. 2033.

V. G. HART,
Department of Mathematics,
University of Queensland,
St Lucia, Qld 4067.

C. A. HURST,
Department of Mathematical
Physics,
University of Adelaide,
Adelaide, S.A. 5000.

J. IMBERGER,
Department of Civil
Engineering,
University of W.A.,
Nedlands, W.A. 6009.

M. R. OSBORNE,
Department of Statistics, IAS,
Australian National
University, P.O. Box 4,
Canberra, A.C.T. 2600.

S. ROSENBLAT,
Department of Mathematics,
University of Melbourne,
Parkville, Vic. 3052.

W. E. SMITH,
School of Mathematics,
University of N.S.W.,
P.O. Box 1, Kensington,
N.S.W. 2033.

C. J. THOMPSON,
Department of Mathematics,
University of Melbourne,
Parkville, Vic. 3052.

Assistant Editors

N. G. BARTON, D. E. MACKENZIE, School of Mathematics, The University of New South Wales, P.O. Box 1, Kensington, N.S.W., Australia, 2033.

Manuscripts (two copies) for publication should be sent to the editor or to an appropriate associate editor at the address given above. Such action is a representation by the author that the manuscript has not been copyrighted or published, and that it is not being considered for publication elsewhere.

Authors are asked to read the section "Preparation of Manuscripts" on the outside cover.

Authors receive 20 free offprints of their papers; additional offprints may be ordered at cost. Excessive costs incurred by the Society through corrections to or withdrawal of articles may be charged to the authors concerned.
