British Journal of Nutrition
An International Journal of Nutritional Science
Volume 101, 2009 ISSN: 0007-1145

Aims and Scope

The *British Journal of Nutrition* is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialities involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The *British Journal of Nutrition* is published twice monthly by Cambridge University Press on behalf of
The Nutrition Society.

The *British Journal of Nutrition* is available online to subscribers at journals.cambridge.org/bjn
Tables of contents and abstracts are available free at the same website.

Editor-in-Chief

P C Calder, *School of Medicine, University of Southampton, Southampton, UK*

Deputy Editors

F Bellisle, *INRA, University of Paris, Bobigny, France*

D R Jacobs Jr, *School of Public Health, University of Minnesota, Minneapolis, MN, USA*

R J Wallace, *Gut Health Programme, Rowett Research Institute, Aberdeen, UK*

S J Whiting, *College of Pharmacy and Nutrition, University of Saskatchewan, Saskatoon, Sask., Canada*

Reviews Editor

J C Mathers, *School of Clinical Medical Sciences, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Supplements Editor

C Seal, *School of Agriculture, Food and Rural Development, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Book Reviews Editor

O B Kennedy, *School of Food Biosciences, University of Reading, Reading, UK*

Editorial Board

J J B Anderson, *Chapel Hill, NC, USA*

J R Arthur, *Aberdeen, UK*

H Zdravics and C Isherwood (*Publications Officers*), C T Hughes (*Sub-editor*)

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its applications to the maintenance of human and animal health.

Application of membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

Particulars of The Nutrition Society and application forms for membership are available from The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK. Tel: +44 (0)20 7602 0228, Fax: +44 (0)20 7602 1756, Email: office@nutsoc.org.uk

Contents

Invited Commentary

- High-protein diets for appetite control and weight loss – the ‘holy grail’ of dieting?
A. M. Johnstone 1729–1730

Short Communication

- Estimated intakes of meat and fish by children and adolescents in Australia and comparison with recommendations.
E. H. Clayton, T. L. Hanstock & J. F. Watson 1731–1735
- Green tea extract selectively activates peroxisome proliferator-activated receptor β/δ in cultured cardiomyocytes.
F. Danesi, M. D. Nunzio, E. Boschetti & A. Bordonì 1736–1739
- Inflammatory markers in a randomised soya intervention among men.
G. Maskarinec, R. Oum, A. K. Chaptman & S. Ognjanovic 1740–1744

Nutritional Genomics

- The effect of *apoE* genotype and sex on ApoE plasma concentration is determined by dietary fat in healthy subjects.
J. A. Moreno, F. Pérez-Jiménez, R. Moreno-Luna, P. Pérez-Martínez,
F. Fuentes-Jiménez, C. Marín, H. Portugal, D. Lairon & J. López-Miranda 1745–1752

Human and clinical nutrition

- Age- and sex-standardised lean and fat indices derived from bioelectrical impedance analysis for ages 7–11 years: functional associations with cardio-respiratory fitness and grip strength.
A. Sherriff, C. M. Wright, J. J. Reilly, J. McColl, A. Ness & P. Emmett 1753–1760
- Ethnic differences in early pregnancy maternal *n*-3 and *n*-6 fatty acid concentrations: an explorative analysis.
M. van Eijsden, G. Hornstra, M. F. van der Wal & G. J. Bonssel 1761–1768
- Folate contents in human milk and casein-based and soya-based formulas, and folate status in Korean infants.
Y.-H. Han, M. Yon, H.-S. Han, K.-Y. Kim, T. Tamura & T. H. Hyun 1769–1774
- Low dietary intake of β -carotene, α -tocopherol and ascorbic acid is associated with increased inflammatory and oxidative stress status in a Swedish cohort.
J. Helmersson, J. Årnlöv, A. Larsson & S. Basu 1775–1782
- Unusual low plasma levels of zinc in non-pregnant Congolese women.
S. Kuvibidila & M. Vuvu 1783–1786
- Brisk walking offsets the increase in postprandial TAG concentrations found when changing to a diet with increased carbohydrate.
S. F. Burns, A. E. Hardman & D. J. Stensel 1787–1796
- Plant stanol ester spreads as components of a balanced diet for pregnant and breast-feeding women: evaluation of clinical safety.
K. Laitinen, E. Isolauri, L. Kaipiainen, H. Gylling & T. A. Miettinen 1797–1804

Dietary Surveys and Nutritional Epidemiology

- Diet scores and cardio-metabolic risk factors among Guatemalan young adults.
C. O. Gregory, M. L. McCullough, M. Ramirez-Zea & A. D. Stein 1805–1811
- The association between dietary vitamin K intake and serum undercarboxylated osteocalcin is modulated by vitamin K epoxide reductase genotype.
K. Nimptsch, A. Nieters, S. Hailer, G. Wolfram & J. Linseisen 1812–1820
- Adherence to the Mediterranean diet is associated with better mental and physical health.
M.-A. Muñoz, M. Fito, J. Marrugat, M.-I. Covas, H. Schröder & on behalf of the REGICOR and HERMES investigators 1821–1827
- Effect of the introduction of ‘Healthy Start’ on dietary behaviour during and after pregnancy: early results from the ‘before and after’ Sheffield study.
F. A. Ford, T. Mouratidou, S. E. Wademan & R. B. Fraser 1828–1836

Innovative Techniques

- Vitamin A equivalency of β -carotene in healthy adults: limitation of the extrinsic dual-isotope dilution technique to measure matrix effect.
C. A. V. Loo-Bouwman, C. E. West, R. B. van Breemen, D. Zhu, E. Siebelink, P. Versloot,
P. J. M. Hulshof, M. van Lieshout, F. G. M. Russel, G. Schaafsma & T. H. J. Naber 1837–1845

Appetite

- The effect of a high-MUFA, low-glycaemic index diet and a low-fat diet on appetite and glucose metabolism during a 6-month weight maintenance period.
B. Sloth, A. Due, T. M. Larsen, J. J. Holst, A. Heding & A. Astrup 1846–1858
- Acute effects of breakfasts containing α -lactalbumin, or gelatin with or without added tryptophan, on hunger, 'satiety' hormones and amino acid profiles.
A. G. Nieuwenhuizen, A. Hochstenbach-Waelen, M. A. B. Veldhorst, K. R. Westerterp, M. P. K. J. Engelen, R.-J. M. Brummer, N. E. P. Deutz & M. S. Westerterp-Plantenga 1859–1866
- Acute effects of pharmacological modifications of fatty acid metabolism on human satiety.
B. Gatta, C. Zuberbuehler, M. Arnold, R. Aubert, W. Langhans & D. Chapelot 1867–1877

Obesity

- Postnatal nutrition alters body composition in adult offspring exposed to maternal protein restriction.
A. K. Gosby, L. M. L. Stanton, C. A. Maloney, M. Thompson, J. Briody, R. C. Baxter, J. M. Bryson, G. S. Denyer & I. D. Caterson 1878–1884

Erratum

1885
