## SPECIAL ISSUE OF INTERNATIONAL PSYCHOGERIATRICS – CALL FOR PAPERS

The peer-reviewed journal *International Psychogeriatrics* (IF 2.207) plans a regular issue focusing on the subject of clinical training of a mental health workforce to work with older adults. Manuscripts relating to theory, empirical studies, case studies, educational initiatives and strategies, and policy and practice implications of clinical training are welcome.

Manuscripts offering a multidisciplinary perspective to such training are particularly sought. The contents will be peer reviewed and at this stage it is planned that they will all appear in the February 2010 issue of the journal. We invite you to submit a paper for this exciting issue. Copies of the IP instructions for contributors can be found at [www.journals.cambridge.org/jid\\_IPG](http://www.journals.cambridge.org/jid_IPG). All papers

submitted will need to be peer reviewed before their appearance in the special issue is confirmed. In order to meet peer-review and publishing deadlines we would like to have your contribution by 30 June 2009. Contributors may be asked to assist with peer review on this issue.

*IPA ... Better Mental Health for Older People*

## Affiliate to IPA

The International Psychogeriatric Association (IPA) invites national and regional organizations in the field of Psychogeriatrics to apply for affiliation.

We believe much can be accomplished when organizations work together to achieve shared goals. Together we can find ways to support more effective research efforts, better educational and informational activities, and enlightened public policy in all nations.

Affiliate Organizations to IPA are those organizations that have goals addressing mental health and aging issues. Affiliate organizations can be from any of the various disciplines associated with IPA. IPA also welcomes multiple organizations from any country. As an IPA affiliate, your organization will play an important role in maintaining this international voice in our field.

Below, we acknowledge these outstanding organizations as IPA Affiliates and our joint commitment to the common goal of better mental health for older people.
