AN INTRODUCTION TO PLANT BIOCHEMISTRY

By

C. C. STEELE, M.A., B.Sc., Ph.D.

*Sometime Lecturer in Chemistry at the Horticultural College
Swanley, Kent*

This textbook forms a concise and up-to-date introduction to Plant Biochemistry for students of Botany, Agriculture and Biology in general. It bridges the gap which so commonly prevails in the teaching of the closely allied subjects of Organic Chemistry and Botany.

The book includes a description of many simple experiments which the author has successfully used to form a course of practical instruction.
