Non-linear analysis of heart rate variability for evaluating the acute effects of caffeinated beverages in young adults – ERRATUM

Serife G. Caliskan and Mehmet D. Bilgin

DOI: <https://doi.org/10.1017/S1047951120001481>, Published online by Cambridge University Press: 09 June 2020

The publisher apologises that, within the *material and methods* section of this paper, the amount of caffeine the participants consumed was incorrectly listed as: 3784 mg, 1514 mg and 404 mg caffeine respectively.

The correct amounts these drinks contained were: 378,4 mg, 151,4 mg and 40,4 mg caffeine respectively.
