# Advances in Applied Probability

This is a companion publication to the *Journal of Applied Probability* published by the Applied Probability Trust. It contains review and expository papers in Applied Probability, as well as mathematical and scientific papers of interest to probabilists. An annual volume of approximately 800 pages will be published in four numbers appearing in March, June, September and December.

## Submission of papers

Submissions to the *Advances* may be of five kinds:

- (1) *review papers*;
  - (2) *longer research papers* in Applied Probability, which may include expository material;
  - (3) *expository papers* on branches of mathematics of interest to probabilists;
  - (4) *papers outlining areas in the biological, physical, social and technological sciences* in which probability models can be usefully developed;
  - (5) *papers in Applied Probability presented at conferences* which do not publish their proceedings.
- Authors are requested to consult the Notes for Contributors on the inside back cover.

### Editor-in-Chief:

J. GANI *CSIRO Division of Mathematics and Statistics, P.O. Box 1965, Canberra City, A.C.T. 2601, Australia.*

### Executive Editor:

MAVIS HITCHCOCK *Applied Probability Office, Department of Probability and Statistics, The University, Sheffield S3 7RH, England.*

### Technical Editor:

KATHLEEN M. LYLE

### Editors:
