

Figures

3.1	A schematic illustration of the preparation of IPCC reports	<i>page</i> 22
4.1	The global distribution of IPCC gatherings (1988–2020)	30
4.2	The WMO headquarters in Geneva, Switzerland	31
4.3	Example of the layout of a Lead Author Meeting	33
4.4	Types of meetings scheduled during a Lead Author Meeting	36
6.1	Major events and changes in the IPCC structure and processes	52
7.1	Proportion of IPCC authors from Global South countries, across the six assessment cycles (AR1 to AR6) and according to different Working Groups	65
7.2	Placeholder avatar from the IPCC author database	67
14.1	Countries with climate models	129
14.2	Timeline of AMIPs/CMIPs and IPCC assessment cycles	133
15.1	The scenario matrix combines the five SSP storylines with seven radiative forcing levels	142
17.1	Confidence scale comparing evidence and agreement	163
17.2	Likelihood scale matching terms to probability ranges	163
18.1	Networked integration	173
20.1	IPCC Panel Session, UNESCO, 24–28 February 2020	190
20.2	Flowchart representing the process of negotiating an SPM sentence or figure	192
25.1	Reproduction of Figure 11, plus original caption, from the IPCC SPM for AR1 WGI in 1990	236
25.2	Reproduction of Figure SPM.1, plus original caption, from the IPCC SPM for AR6 WGI in 2021	236
25.3	Risks associated with Reasons For Concern at a global scale are shown for increasing levels of climate change	238
