

THE CHINESE UNIVERSITY OF HONG KONG

Applications are invited for:-

Department of Systems Engineering and Engineering Management

(1) Associate Professor(s) / Assistant Professor(s)

(Ref. 06/238(456)/2)

Applicants should have (i) a doctorate degree; (ii) outstanding academic records; (iii) firm commitment to both excellent teaching and research; and (iv) speciality in financial engineering, logistics and supply chain management, optimization and operations research or related areas. Appointments will normally be made on contract basis for up to three years initially commencing August/September 2007, leading to longer-term appointment or substantiation later subject to budget and mutual agreement. Applications will be accepted until the positions are filled.

(2) Professor(s) / Associate Professor(s) / Assistant Professor(s)

(Ref. 06/239(456)/2)

Applicants should have (i) a doctorate degree; (ii) outstanding academic records; (iii) firm commitment to both excellent teaching and research; and (iv) speciality in financial engineering, information systems, logistics and supply chain management, optimization and operations research or related areas. Appointments, on a visiting basis, will initially be made on contract basis usually for one year commencing August/September 2007, renewable subject to budget and mutual agreement. Applications will be accepted until the positions are filled.

(3) Research Associate Professor(s) / Research Assistant Professor(s)

(Ref. 06/240(456)/2)

Applicants should have (i) a doctorate degree; (ii) outstanding academic records; (iii) firm commitment to both excellent teaching and research; and (iv) speciality in financial engineering, information systems, logistics and supply chain management, optimization and operations research or related areas. The appointees will mainly carry out research, and may also undertake some teaching duties. Appointments will initially be made on contract basis for up to two years commencing August/September 2007, renewable subject to budget and mutual agreement. Applications will be accepted until the positions are filled.

Salary and Fringe Benefits

Salary will be highly competitive, commensurate with qualifications and experience. The University offers a comprehensive fringe benefit package, including medical care, plus a contract-end gratuity for appointments of two years or longer, and housing benefits for eligible appointees.

Further information about the University and the general terms of service for appointments is available at <http://www.cuhk.edu.hk/personnel>. The terms mentioned herein are for reference only and are subject to revision by the University.

Application Procedure

Please send curriculum vitae, names of at least three referees (with e-mail and postal addresses, telephone and fax numbers), together with copies of academic credentials, a publication list and/or abstracts of selected published papers, to the Chairman, Department of Systems Engineering & Engineering Management, Room 609, William M.W. Mong Engineering Building, The Chinese University of Hong Kong, Shatin, N.T., Hong Kong (Tel: (852) 2609 8313; Fax: (852) 2603 5505; E-mail: recruit@se.cuhk.edu.hk).

The Personal Information Collection Statement will be provided upon request. Please quote the reference number and mark "Application - Confidential" on cover.

COLLEGE OF BUSINESS
LeBow

JFQA Style Requirements

Send manuscripts via e-mail in PDF, Word, or LaTeX. The cover page must show title, author name(s) and affiliation(s), e-mail address(es), and work phone number(s). The first page of text should include the title and a one-paragraph abstract of no more than 100 words. Manuscripts must be double-spaced on one side of the page. All sections of the paper, beginning with the introduction and ending with a conclusion or summary, must be numbered with Roman numerals. Subsection headings must be lettered A, B, C, etc.

The manuscript should explain its relation to other research in the field, especially recently published material. References cited in the text should be noted by the last name(s) of the author(s) followed by the publication year enclosed in parentheses without punctuation: Smith (1988). When a particular page, section, or equation is referred to, the reference also should be placed within parentheses: (Smith and Jones (1988), p. 222), (Green (1988a), eq. 3).

Lengthy mathematical proofs and extensive tables should be placed in an appendix or omitted from the manuscript entirely. In the latter case, the author may indicate in a footnote that proofs or tables are available on request. The author should make every effort to explain the meaning of mathematical proofs.

The author should check the manuscript for clarity, grammar, spelling, and punctuation to minimize editorial changes and the necessity of extensive corrections at the proof stage. All abbreviations must be defined.

Equations. All but very short mathematical expressions should be displayed on a separate line and centered. Important displayed equations must be identified by consecutive Arabic numerals in parentheses on the left. Expressions should be aligned and subscripts and superscripts clearly marked to avoid confusion.

Tables. Each table must be titled and numbered consecutively with Arabic numerals. Please check the text to make sure there is a reference to each table. General footnotes should be marked a, b, c, etc., for specific footnotes. Asterisks * or ** indicate significance at the 5% and 1% levels, respectively. The author should check tables to be sure that totals are correct and that the title, column headings, and footnotes clearly explain the content of the table. If tables are on separate pages at the end of the article, indicate approximate placement within the text.

Figures. Figures must be titled and numbered consecutively with Arabic numerals. Captions should present sufficient information to describe the purpose of the figure. Figures for accepted manuscripts must be of professional quality and ready for reproduction.

Footnotes. Footnotes must be double-spaced. Footnotes must not be used for the purpose of citation. Footnotes with extensive content should be avoided.

References. All works cited in the text must be alphabetically arranged in a double-spaced list at the end of the manuscript. Examples:

Brown, S., and J. Warner. "Using Daily Stock Returns: The Case of Event Studies." *Journal of Financial Economics*, 14 (1985), 1–31.

Ross, S. A. "Return Risk and Arbitrage." In *Risk and Return in Finance*, Vol. I, I. Friend and J. L. Bicksler, eds. Cambridge, MA: Ballinger (1977).

Titman, S.; K. C. Wei; and F. Xie. "Capital Investments and Stock Returns." *Journal of Financial and Quantitative Analysis*, 39 (2004), 677–700.

JFQA Journal of Financial and Quantitative Analysis

2007 Subscription Information

The Journal of Financial and Quantitative Analysis (JFQA) is published quarterly in March, June, September, and December by the School of Business Administration at the University of Washington in Seattle, Washington, U.S.A. Topics include corporate finance, investments, capital and security markets, and quantitative methods of particular relevance to financial researchers. With a circulation of 3000 libraries, firms, and individuals in 70 nations, the JFQA serves an international community of sophisticated finance scholars—academics and practitioners alike. The JFQA prints 10 to 12% of the more than 500 unsolicited manuscripts submitted annually. An intensive blind review process and exacting editorial standards contribute to the JFQA's reputation as a top finance journal.

Payment in advance is required. Checks or money orders must be payable to the JFQA in U.S. dollars for deposit in a U.S. bank. Subscriptions start with the next available issue unless otherwise requested. Upon request, electronic subscriptions are available in PDF files. Claims for missing issues must be made within six months of the publication date.

To inquire about permission to reprint or the availability of specific back issues (at a cost of \$30 per copy), contact the JFQA office.
