

JOURNAL
OF
HELMINTHOLOGY

(Founded by R. T. LEIPER)

Vol. XXIX, 1955

Nos. 1/2

Edited by

J. J. C. BUCKLEY, D.Sc.

William Julien Courtauld Professor of Helminthology
in the University of London

London School of Hygiene
and
Tropical Medicine
Keppel Street
London
W.C.1

CONTENTS OF VOLUME XXIX

Nos. 1/2.

	PAGES
1. Willmott, S. and Pester, F. R. N. The Discovery of <i>Paramphistomum hiberniae</i> Willmott, 1950, and its Intermediate Host in the Channel Islands	1—2
2. Wallace, H. R. Factors Influencing the Emergence of Larvae from Cysts of the Beet eelworm, <i>Heterodera schachtii</i> Schmidt	3—16
3. Soliman, K. N. Observations on Some Helminth Parasites from Ducks in Southern England... ..	17—26
4. Gharib, H. M. Some Observations on the Transmission of Bacteria by Infective Larvae of <i>Nippostrongylus brasiliensis</i>	27—32
5. Gharib, H. M. Observations on Skin Penetration by the Infective Larvae of <i>Nippostrongylus brasiliensis</i>	33—36
6. Yeh Liang-Sheng. A New Tapeworm, <i>Diphyllobothrium salvelini</i> sp. nov., from a Salmon, <i>Salvelinus alpinus</i> , in Greenland	37—48
7. Yeh Liang-Sheng. A New Bursate Nematode <i>Hepatojarakus malayae</i> gen. et sp. nov. from the Liver of <i>Rattus rattus jarak</i> (Bonhote) on Pulau Jarak, Straits of Malacca	44—48
8. Winslow, R. D. A New Method of the Production and Recovery of Cysts of Root Eelworms (<i>Heterodera</i> spp.) for Use in Bio-assay	49—54
9. McClelland, W. F. J. <i>Nematobothrium labeonis</i> n.sp., a Member of the Family Didymozoidae (Trematoda) from a Freshwater Fish	55—64
10. Franklin, M. T. A Redescription of <i>Aphelenchoides parietinus</i> (Bastian, 1865) Steiner, 1932	65—76
11. Ellenby, C. On a Technique for Infecting Plants with the Potato Root-eelworm, <i>Heterodera rostochiensis</i> Wollenweber	77—80
12. Peters, B. G. The Combined Use of Nematicidal Soil Fumigants and Solubilized Chemicals	81—86
13. Schuurmans Stekhoven, J. H., Jr. and Mawson, Patricia M. On some Free-living Marine Nematodes from Kerguelen Island	87—104
Actual Dates of Publication, Volume XXVIII	104
